

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 (FEE REQUIRED)

For the fiscal year ended **September 30, 2021**

TRANSACTION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 (NO FEE REQUIRED)

For the transaction period from _____ to _____

Commission File number 000-30262

KNOW LABS, INC.

(Exact name of registrant as specified in charter)

Nevada

(State or other jurisdiction of incorporation or organization)

90-0273142

(I.R.S. Employer Identification No.)

500 Union Street, Suite 810, Seattle, Washington USA

(Address of principal executive offices)

98101

(Zip Code)

206-903-1351

(Registrant's telephone number, including area code)

N/A

(Former name, address, and fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

None

Title of each class

N/A

Name of each exchange on which registered

Common Stock, par value \$0.001

(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act: Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2

Large accelerated filer

Non-accelerated filer

Emerging growth company

Accelerated filer

Smaller reporting company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of March 31, 2021 (the last business day of our most recently completed second fiscal quarter), based upon the last reported trade on that date, the aggregate market value of the voting and non-voting common equity held by non-affiliates (for this purpose, all outstanding and issued common stock minus stock held by the officers, directors and known holders of 10% or more of the Company's common stock) was \$64,103,310.

The number of shares of common stock, \$.001 par value, issued and outstanding as of December 17, 2021: 35,969,912 shares

DOCUMENTS INCORPORATED BY REFERENCE: None.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

The following discussion, in addition to the other information contained in this report, should be considered carefully in evaluating us and our prospects. This report (including without limitation the following factors that may affect operating results) contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended (“Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (“Exchange Act”) regarding us and our business, financial condition, results of operations and prospects. Words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates” and similar expressions or variations of such words are intended to identify forward-looking statements but are not the exclusive means of identifying forward-looking statements in this report. Additionally, statements concerning future matters such as revenue projections, projected profitability, growth strategies, development of new products, enhancements or technologies, possible changes in legislation and other statements regarding matters that are not historical are forward-looking statements.

Forward-looking statements in this report reflect the good faith judgment of our management and these statements are based on facts and factors as we currently understand them. Forward-looking statements are subject to risks and uncertainties and actual results and outcomes may differ materially from the results and outcomes discussed in the forward-looking statements. Factors that could cause or contribute to such differences in results and outcomes include, but are not limited to, those discussed below in “Risk Factors” and in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” as well as those discussed elsewhere in this report. Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise or update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this report.

ITEM 1. DESCRIPTION OF BUSINESS

BACKGROUND AND CAPITAL STRUCTURE

Know Labs, Inc. was incorporated under the laws of the State of Nevada in 1998. Since 2007, the Company has been focused primarily on research and development of proprietary spectroscopic technologies spanning the electromagnetic spectrum. More recently, the Company has used its proprietary Artificial Intelligence (“AI”) Deep Learning Platform to further enhance the ability of its spectroscopic technologies to accurately identify and measure a wide range of organic and inorganic materials, analytes and compositions of matter. The AI platform has recently produced revenues through the sale of Non-Fungible Tokens (“NFT”) it generated. Our Common Stock trades on the OTCQB Exchange under the symbol “KNWN.”

BUSINESS

We are focused on the development and commercialization of proprietary biosensor technologies which, when paired with our AI deep learning platform, are capable of uniquely identifying and measuring almost any material or analyte using electromagnetic energy to detect, record, identify and measure the unique “signature” of said materials or analytes. We call these our “Bio-RFID™” technology platform when pertaining to radio and microwave spectroscopy; and “ChromaID” technology platform when pertaining to optical spectroscopy. The data obtained with our biosensor technology is analyzed with our trade secret algorithms which are driven by our AI Deep Learning platform.

ChromaID is the first technology developed and patented by the Company. For the past several years, we have focused upon extensions and new patentable inventions that are derived from and extend beyond our ChromaID technology and intellectual property. We call this technology platform Bio-RFID. The rapid advances made with our Bio-RFID technology in our laboratory have caused us to move quickly into the commercialization phase of our Company as we work to create revenue generating products for the marketplace. Today, the primary focus of the Company is on its Bio-RFID technology, its commercialization and development of related patent assets. Through its wholly owned subsidiary corporations the Company works to exploit additional opportunities and markets that its broad intellectual property and trade secret portfolio addresses.

The Know Labs Technology

We have internally and under contract with third parties developed proprietary platform technologies to uniquely identify and measure almost any organic and inorganic material or analyte. Our patented technology utilizes electromagnetic energy along a wide range of the electromagnetic spectrum from visible light and infrared to radio and microwave wavelengths to perform analytics which allow the user to accurately identify and measure materials and analytes depending upon the specified targets or endpoints and field of use. The Company’s proprietary platform technologies are called Bio-RFID and ChromaID.

Our most recent technology platform is called Bio-RFID, which utilizes spectroscopy at higher wavelengths than ChromaID’s optical range, to span radio wave and microwave segments of the electromagnetic spectrum. Working in our lab over the last three years, we have developed extensions and new inventions derived in part from our ChromaID technology which we refer to as Bio-RFID. We believe an important competitive differentiator for Bio-RFID to be its ability to not only identify a wide range of organic and inorganic materials and analytes, but to do so concurrently, and in real time, which potentially enables new multivariate models of clinical diagnostics, and health and wellness monitoring. We are rapidly advancing the development of this technology by increasing its accuracy, sensitivity, and specificity. We have announced detailed results confirming that we have successfully been able to non-invasively measure blood glucose levels in humans.

The ability of the Company to obtain exacting results from the data obtained from its Bio-RFID sensor technology, also referred to as Radio Frequency Spectroscopy or RF Spectroscopy is a consequence of the application of the Company's trade secret algorithms. The Company has worked for the last several years on the AI and Machine Learning ("ML") that drives the accurate pattern recognition of its algorithms. This work has led to the development of a robust AI Deep Learning Platform. This AI Platform drives the data pattern recognition for Bio-RFID's exacting determination of blood glucose levels. It can also provide the data recognition for blood alcohol and blood oxygen levels which the Company also identified in preliminary tests. It will provide the analytics for the long list of other analytes in the human body that the Company will pursue non-invasive detection of, many of which are set forth in the Company's issued patent USPTO 11,033,208 B1. The Company's AI Deep Learning Platform will be monetized through the subsidiary AI Mind, Inc. AI Mind, Inc. was incorporated on September 17, 2021 and had limited operations through September 30, 2021 but expects to begin more substantive operations next quarter.

We continue to build the internal and external development team necessary to commercialize this newly discovered technology as well as make additional patent filings covering the intellectual property created with these new inventions. The first applications of our Bio-RFID technology will be in a product marketed as a Glucose Monitor. It will provide the user with real time information on their blood glucose levels. This product will require US Food and Drug Administration clearance prior to its introduction to the market, which we plan to pursue.

We have also announced the results of laboratory-based comparison testing between our Bio-RFID technology and the leading continuous glucose monitors from Abbott Labs (Freestyle Libre®) and DexCom (G6®). These results provide evidence of a high degree of correlation between our Bio-RFID technology and the current industry leaders and their continuous glucose monitors. Our patented technology is fundamentally differentiated from these industry leaders as our technology completely non-invasively monitors blood glucose levels.

In addition to internal testing, the Company engaged a world-renowned research institution to perform third party validation testing of the Bio-RFID technology. The purpose of the independent pre-clinical research was to confirm that Know Labs' Bio-RFID technology is able to precisely and non-invasively measure and identify a variety of analytes in vitro by detecting their unique radio frequency spectral responses. The results of this testing were reported in a June 8, 2021, press release and Form 8-K filing. Unfortunately, the research institution would not allow their name to be used in the press release absent the publication of the report in a peer reviewed journal, which can take considerable time.

We have begun the internal process to pursue US Food and Drug Administration (FDA) approval of our non-invasive blood glucose monitoring device as soon as possible. To guide us in that undertaking we previously announced the hiring of a Chief Medical Officer and formed a Medical and Regulatory Advisory Board to guide us through the FDA process. Additionally, we have retained third party quality assurance and documentation consultants to ensure that the rigorous requirements of the FDA are met. We are unable, however, to estimate the time necessary for such approval nor the likelihood of success in that endeavor.

Our ChromaID patented technology utilizes light at the photon (elementary particle of light) level through a series of emitters and detectors to generate a unique signature or "fingerprint" from a scan of almost any solid, liquid or gaseous material. This signature of reflected or transmitted light is digitized, creating a unique ChromaID signature. Each ChromaID signature is comprised of from hundreds to thousands of specific data points.

The ChromaID technology looks beyond visible light frequencies to areas of near infra-red and ultraviolet light and beyond that are outside the humanly visible light spectrum. The data obtained allows us to create a very specific and unique ChromaID signature of the substance for a myriad of authentication, verification, and identification applications.

Bio-RFID, ChromaID and AI Deep Learning: Foundational Platform Technologies

Our technologies provide a unique platform upon which a myriad of applications can be developed. As platform technologies, they are analogous to a smartphone, upon which an enormous number of previously unforeseen applications have been developed. Bio-RFID and ChromaID technologies are "enabling" technologies that bring the science of electromagnetic energy to low-cost, real-world commercialization opportunities across multiple industries. The technologies are foundational and, as such, the basis upon which the Company believes significant businesses can be built. While the Company is pursuing its core focus on commercializing its Glucose Monitor, it believes non-core clinical and non-clinical applications represent a myriad of opportunity for strategic collaboration and joint development agreements with leading companies in their respective industries.

As with other foundational technologies, a single application may reach across multiple industries. The Bio-RFID technology can non-invasively identify the presence and quantity of blood glucose in the human body. By extension, there may be other analytes or molecular structures this same technology can identify in the human body which, over time, the Company will focus on. They may include the monitoring of drug usage or the presence of illicit drugs. They may also involve identifying hormones and various biomarkers of disease or pre-conditions of disease.

Similarly, the ChromaID technology can, for example effectively differentiate and identify different brands of clear vodkas that appear identical to the human eye. By extension, this same technology could identify pure water from water with contaminants present. It could provide real time detection of liquid medicines such as morphine that have been adulterated or compromised. It could detect if jet fuel has water contamination present. It could determine when it is time to change oil in a deep fat fryer. These are but a few of the potential applications of the ChromaID technology based upon extensions of its ability to identify different liquids.

The AI Deep Learning Platform is an enabling technology which can identify patterns from data gathered from both the Bio-RFID and ChromaID platform technologies. The AI Deep Learning Platform is critical to the Company's ability to identify accurately blood glucose levels and other analytes in the human body. Over time, utilizing our AI Deep Learning Platform we plan to develop analytics which, when using data collected from our sensors, will provide useful information on health and wellness to end users, and potentially lead to what the Company calls "Predictive Health." In addition to identifying patterns, the inverse is also possible as the Company's AI Deep Learning Platform can also create patterns in the form of 3D graphical images. That activity has found its first form in the work of the Company's subsidiary, AI Mind, Inc., to generate beautiful 3D graphical images which were sold as NFTs providing revenue in the first quarter of fiscal year 2022, as reported in the Company's recently filed Form 8-K and press release. The Company believes there will be future revenue generation from the sale of NFTs and from other applications of its AI Deep Learning Platform.

The cornerstone of a company with a foundational platform technology is its intellectual property portfolio. We have pursued an active intellectual property strategy which includes focus on patents where appropriate and a diligent protection of trade secrets. The Company has been granted 20 patents and 6 design patents. We currently have a number of patents pending and continue, on a regular basis, the filing of new patents. We possess all right, title and interest to the issued patents.

Our Patents and Intellectual Property

We believe that our 20 patents and 9 design patents, patent applications, registered trademarks, and our trade secrets, copyrights and other intellectual property rights are important assets. Our issued patents will expire at various times between 2027 and 2041. Pending patents, if and when issued, may have expiration dates that extend further in time. The duration of our trademark registrations varies from country to country. However, trademarks are generally valid and may be renewed indefinitely as long as they are in use and/or their registrations are properly maintained.

The issued patents cover the fundamental aspects of the Know Labs ChromaID and Bio-RFID technology and a number of unique applications. We have filed patents on the fundamental aspects of our Bio-RFID technology and growing number of unique applications. We will continue to expand the Company's patent portfolio.

Additionally, significant aspects of our technology are maintained as trade secrets which may not be disclosed through the patent filing process. We are diligent in maintaining and securing our trade secrets.

The patents that have been issued to Know Labs and their dates of issuance are:

On August 9, 2011, we were issued US Patent No. 7,996,173 B2 entitled "Method, Apparatus and Article to Facilitate Distributed Evaluation of Objects Using Electromagnetic Energy," by the United States Office of Patents and Trademarks. The patent expires August 24, 2029.

On December 13, 2011, we were issued US Patent No. 8,076,630 B2 entitled "System and Method of Evaluating an Object Using Electromagnetic Energy" by the United States Office of Patents and Trademarks. The patent expires November 7, 2028.

On December 20, 2011, we were issued US Patent No. 8,081,304 B2 entitled "Method, Apparatus and Article to Facilitate Evaluation of Objects Using Electromagnetic Energy" by the United States Office of Patents and Trademarks. The patent expires July 28, 2030.

On October 9, 2012, we were issued US Patent No. 8,285,510 B2 entitled "Method, Apparatus, and Article to Facilitate Distributed Evaluation of Objects Using Electromagnetic Energy" by the United States Office of Patents and Trademarks. The patent expires July 31, 2027.

On February 5, 2013, we were issued US Patent No. 8,368,878 B2 entitled "Method, Apparatus and Article to Facilitate Evaluation of Objects Using Electromagnetic Energy by the United States Office of Patents and Trademarks. The patent expires July 31, 2027.

On November 12, 2013, we were issued US Patent No. 8,583,394 B2 entitled "Method, Apparatus and Article to Facilitate Distributed Evaluation of Objects Using Electromagnetic Energy by the United States Office of Patents and Trademarks. The patent expires July 31, 2027.

[Table of Contents](#)

On November 21, 2014, we were issued US Patent No. 8,888,207 B2 entitled “Systems, Methods, and Articles Related to Machine-Readable Indicia and Symbols” by the United States Office of Patents and Trademarks. The patent expires February 7, 2033. This patent describes using ChromaID to see what we call invisible bar codes and other identifiers.

On March 23, 2015, we were issued US Patent No. 8,988,666 B2 entitled “Method, Apparatus, and Article to Facilitate Evaluation of Objects Using Electromagnetic Energy” by the United States Office of Patents and Trademarks. The patent expires July 31, 2027.

On May 26, 2015, we were issued US Patent No. 9,041,920 B2 entitled “Device for Evaluation of Fluids using Electromagnetic Energy” by the United States Office of Patents and Trademarks. The patent expires March 12, 2033. This patent describes a ChromaID fluid sampling devices.

On April 19, 2016, we were issued US Patent No. 9,316,581 B2 entitled “Method, Apparatus, and Article to Facilitate Evaluation of Substances Using Electromagnetic Energy” by the United States Office of Patents and Trademarks. The patent expires March 12, 2033. This patent describes an enhancement to the foundational ChromaID technology.

On April 18, 2017, we were issued US Patent No. 9,625,371 B2 entitled “Method, Apparatus, and Article to Facilitate Evaluation of Substances Using Electromagnetic Energy.” The patent expires July 2027. This patent pertains to the use of ChromaID technology for the identification and analysis of biological tissue. It has many potential applications in medical, industrial and consumer markets.

On May 30, 2017, we were issued US Patent No. 9,664,610 B2 entitled “Systems for Fluid Analysis Using Electromagnetic Energy that is reflected a Number of Times through a Fluid Contained within a Reflective Chamber.” This patent expires approximately in approximately March 2034. This patent pertains to a method for the use of the Company’s technology analyzing fluids.

On April 4, 2018, we were issued US Patent No. 9,869,636 B2, entitled “Device for Evaluation of Fluids Using Electromagnetic Energy.” The patent expires in approximately April 2033. This patent pertains to the use of ChromaID technology for evaluating and analyzing fluids such as those following through an IV drip in a hospital or water, for example.

On February 4, 2020, we were issued US Patent No. 10,548,503 B2, entitled “Health Related Diagnostics Employing Spectroscopy in Radio/Microwave Frequency Band.” The patent expires in approximately May 2039. This patent pertains to the use of Bio-RFID technology for medical diagnostics.

On June 8, 2021, we were issued US Patent No. 11,031,970, entitled “Non-Invasive Analyte Sensor and System with Decoupled and Inefficient Transmit and Receive Antennas.” This patent expires in approximately December 2040. This patent pertains to the unique configuration of the antennas used in Know Labs’ Bio-RFID sensors.

On June 15, 2021, we were issued US Patent No. 11,033,208, entitled “Fixed Operation Time Frequency Sweeps for an Analyte Sensor.” This patent expires in approximately February 2041. This patent pertains to how operation of the Know Labs Bio-RFID sensor technology is controlled.

On July 13, 2021, we were issued US Patent No. 11,063,373, entitled “Non-Invasive Analyte Sensor and System with Decoupled Transmit and Receive Antennas.” This patent expires in approximately December 2040. This patent pertains to the unique configuration of the antennas used in Know Labs’ Bio-RFID sensors.

On July 13, 2021, we were issued US Patent No. 11,058,317, entitled “Non-Invasive Detection of an Analyte Using Decoupled and Inefficient Transmit and Receive Antennas.” This patent expires in approximately December 2040. This patent pertains to the unique configuration of the antennas used in Know Labs’ Bio-RFID sensors.

On July 13, 2021, we were issued US Patent No. 11,058,331, entitled “Analyte Sensor and System with Multiple Detector Elements that can Transmit or Receive.” This patent expires in approximately February 2041. This patent pertains to the technology that allows the implementation of radio frequency scans using different combinations of antennas to improve the detection capabilities of the Bio-RFID sensors in non-invasively measuring and identifying analytes, including glucose.

On December 7, 2021, we were issued US Patent No. 11,193,923, entitled “Detection of an Analyte Using Multiple Elements that can Transmit or Receive.” This patent expires in approximately February 2041. This patent pertains to the technology that allows the implementation of radio frequency scans using different combinations of antennas to improve the detection capabilities of the Bio-RFID sensors in non-invasively measuring and identifying analytes, including glucose.

Product Strategy

We are currently undertaking internal development work on potential products for the commercial marketplace. We have announced the development of our non-invasive glucose monitor and our desire to obtain US Food and Drug Administration clearance for the marketing of this product. We have also announced the engagement of a manufacturing partner we will work with to bring this product to market. We will make further announcements regarding this product as development, testing, manufacturing, and regulatory approval work progresses.

Currently we are focusing our efforts on productizing our Bio-RFID technology as we move it out of our research laboratory, through appropriate and required clinical trials and into the marketplace.

Our subsidiary corporation, Particle, Inc. is seeking a strategic distribution partner or partners to move its virus deactivating light bulb into the global marketplace. Our AI Mind, Inc. subsidiary is looking at additional ways to monetize its AI Deep Learning Platform beyond the NFT market for its graphical images and expects to test several product ideas over the next fiscal year.

Research and Development

Our current research and development efforts are primarily focused on improving our Bio-RFID technology, extending its capacity, and developing new and unique applications for this technology and the AI Deep Learning Platform that drives its analytics. As part of this effort, we conduct on-going laboratory testing to ensure that application methods are compatible with the end-user and regulatory requirements, and that they can be implemented in a cost-effective manner. We are also actively involved in identifying new applications. Our current internal team along with outside consultants have considerable experience working with the application of our technologies and their application. We engage third party experts as required to supplement our internal team. We believe that continued development of new and enhanced technologies is essential to our future success. We incurred expenses of \$3,970,000 and \$2,034,000 for the year ended September 30, 2021 and 2020, respectively, on development activities.

On April 30, 2020, we approved and ratified the incorporation of Particle, Inc. Particle is focused on the development and commercialization of our extensive intellectual property relating to electromagnetic energy outside of the medical diagnostic arena which remains the parent company's singular focus. Since incorporation, Particle has engaged in research and development activities on threaded light bulbs that have a warm white light and can inactivate germs, including bacteria and viruses. It is now looking for partners to take the product to market.

On September 17, 2021, we approved and ratified the incorporation of AI Mind, Inc. AI Mind is focused on monetizing the AI Deep Learning Platform. Since incorporation it has focused on creating patterns from Company data which were sold as NFTs. The Company will continue to look for opportunities for new applications on its AI Deep Learning Platform which to generate revenues to support the continued development of its non-invasive diagnostic technology.

Related Patent Assets

Inherent in a platform technology is the ability to develop or license technology in diverse fields of use apart from the Company's core focus. Know Labs focuses on human health and wellness with a first focus on the non-invasive monitoring of blood glucose. It will pursue the identification of a multitude of analytes in the human body important to diagnostics over time. The Company will also identify, over time, opportunities for its intellectual property to be deployed in areas outside human health and wellness. Examples are Particle, Inc. and AI Mind, Inc.

On April 30, 2020, we incorporated a subsidiary corporation, Particle, Inc. for the purpose of research and development on non-core Company intellectual property. The first research activity, undertaken by a separate Particle team has been on standard threaded light bulbs that have a warm white light that can inactivate germs, including bacteria and viruses. On June 1, 2020, we approved and ratified entry into an intercompany Patent License Agreement dated May 21, 2020 with Particle. Pursuant to the Agreement, Particle received an exclusive non-transferrable license to use certain patents and trademarks of the Company, in exchange the Company shall receive: (i) a one-time fee of \$250,000 upon a successful financing of Particle, and (ii) a quarterly royalty payment equal to the greater of 5% of the Gross Sales, net of returns, from Particle or \$5,000. As of September 30, 2021, the operations of Particle have generated no sales and operations are just commencing. The first product, the Particle bulb can be used in households, businesses, and other facilities to inactivate bacteria and viruses. Through internal preliminary testing, Particle personnel has confirmed the bulb's efficacy in inactivating common germs such as *E. coli* and *Staphylococcus*. Final study results from Texas Biomedical Research Institute indicate the Particle bulb's ability to inactivate SARS-CoV-2, the virus that causes COVID-19 and most recently, the Alpha and Delta variants of the virus that causes COVID-19. The Particle team is working on certification, labeling, product manufacturing and related go-to-market requirements; as well as business development activities related to interest from potential strategic and channel partners in both consumer and business applications in the global marketplace.

On September 17, 2021 we incorporated a subsidiary corporation, AI Mind, Inc. for the purpose of identifying and capitalizing upon market opportunities for its AI Deep Learning Platform. The first revenue activity undertaken by the subsidiary was after the year ended September 30, 2021 and related to the creation of graphical images expressed as NFTs utilizing the AI Deep Learning Platform and our data. We plan to explore other opportunities to monetize our AI Deep Learning Platform.

We expect that other such subsidiaries may be created over time. Additionally, we may license its intellectual property to third parties so that they may pursue activities that are not a part of the Company's core focus.

EMPLOYEES

As of September 30, 2021, we had 10 full-time employees. Our senior management and seven other personnel are located in our Seattle, Washington offices. We periodically utilize consulting firms and individual contractors to supplement our workforce.

THE COMPANY'S COMMON STOCK

Our common stock trades on the OTCQB Exchange under the symbol "KNWN."

PRIMARY RISKS AND UNCERTAINTIES

We are exposed to various risks related to our need for additional financing, the sale of significant numbers of our shares and a volatile market price for our common stock. These risks and uncertainties are discussed in more detail below in Part II, Item 1A.

CORPORATE INFORMATION

We were incorporated under the laws of the State of Nevada on October 8, 1998. Our executive offices are located at 500 Union Street, Suite 810, Seattle, WA 98101. Our telephone number is (206) 903-1351 and its principal website address is located at www.knowlabs.co. The information on our website is not incorporated as a part of this Form 10-K.

ITEM 1A. RISK FACTORS

There are certain inherent risks which will have an effect on the Company's development in the future and the most significant risks and uncertainties known and identified by our management are described below.

RISK FACTORS

Risks Related to Pandemics

The near-term effects of the recent COVID-19 coronavirus pandemic are known, as they adversely affected our business. Longer term effects are not immediately known and may adversely affect our business, results of operations, financial condition, liquidity and cash flow.

Over the past year and a half the impact of COVID-19 has had adverse effects on our business by slowing down our ability to work with third parties outside of Seattle on testing and validation. It is difficult to predict what other adverse effects, if any, COVID-19 can have on our business, or against the various aspects of same.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency caused by a new strain of the coronavirus ("COVID-19") and advised of the risks to the international community as the virus spread globally. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic based on the rapid increase in exposure globally. The spread of COVID-19 coronavirus has caused public health officials to recommend precautions to mitigate the spread of the virus, especially as to travel and congregating in large numbers. In addition, certain states and municipalities have enacted quarantining and "shelter-in-place" regulations which severely limit the ability of people to move and travel and require non-essential businesses and organizations to close. While some states have lifted certain "shelter-in-place" restrictions and travel bans, as they are removed there is no certainty that an outbreak will not occur, and additional restrictions imposed again in response. Additionally, several states have lifted restrictions only to reimpose such restrictions as the number of cases rise and new variants arise. Lastly, as vaccinations become readily available, we cannot predict what restrictions may be imposed in the event of a vaccine mandate for travel to and from particular destinations.

It is unclear how such restrictions, which will contribute to a general slowdown in the global economy, and it is difficult to isolate the impact of the pandemic on our business, results of operations, financial condition and our future strategic plans. Further, while many businesses have survived the past year, and some thrived, as COVID-19 becomes more controlled, we cannot predict how the global economy will respond to the return to normalcy, or whether it will continue to sustain steadily.

In addition, the Company is uncertain of the full effect the pandemic will have on it for the longer term since the scope and duration of the pandemic is unknown, and evolving factors such as the level and timing of the distribution of efficacious vaccines across the world and the extent of any resurgences of the virus or emergence of new variants of the virus, such as the Delta variant and the Omicron variant, will impact the stability of economic recovery and growth. The extent to which the operations of the Company, and the operations of its customers and supply chain, may be adversely impacted by the COVID-19 pandemic will depend largely on these future developments. The Company may experience long-term disruptions to its operations resulting from changes in government policy or guidance; quarantines of employees, customers and suppliers in areas affected by the pandemic; and closures of businesses or manufacturing facilities critical to its business or supply chains. The Company is actively monitoring, and will continue to actively monitor, the pandemic and the potential impact on its operations, financial condition, liquidity, suppliers, industry and workforce.

General securities market uncertainties resulting from the COVID-19 pandemic.

Since the outset of the pandemic the United States and worldwide national securities markets have undergone unprecedented stress due to the uncertainties of the pandemic and the resulting reactions and outcomes of government, business and the general population. These uncertainties have resulted in declines in all market sectors, increases in volumes due to flight to safety and governmental actions to support the markets. As a result, until the pandemic has stabilized, the markets may not be available to the Company for purposes of raising required capital. Should we not be able to obtain financing when required, in the amounts necessary to execute on our plans in full, or on terms which are economically feasible we may be unable to sustain the necessary capital to pursue our strategic plan and may have to reduce the planned future growth and/or scope of our operations.

Risks Relating to the Company Generally

We need additional financing to support our technology development and ongoing operations, pay our debts and maintain ownership of our intellectual properties.

We are currently operating at a loss. We believe that our cash on hand will be sufficient to fund our operations through December 31, 2023. We may need additional financing to implement our business plan and to service our ongoing operations, pay our current debts (described below) and maintain ownership of our intellectual property. There can be no assurance that we will be able to secure any needed funding, or that if such funding is available, the terms or conditions would be acceptable to us. If we are unable to obtain additional financing when it is needed, we will need to restructure our operations and/or divest all or a portion of our business. We are each seeking additional capital through a combination of private and public equity offerings, debt financings and strategic collaborations. Debt financing, if obtained, may involve agreements that include covenants limiting or restricting our ability to take specific actions, such as incurring additional debt, and could increase our expenses and require that our assets secure such debt. Equity financing, if obtained, could result in dilution to our then-existing stockholders and/or require such stockholders to waive certain rights and preferences. If such financing is not available on satisfactory terms, or is not available at all, we may be required to delay, scale back, eliminate the development of business opportunities and our operations and financial condition may be materially adversely affected. There can be no assurance that we will be able to sell that number of shares, if any.

As of September 30, 2021, we owe approximately \$2,676,665 and if we do not satisfy these obligations, the lenders may have the right to demand payment in full or exercise other remedies.

Mr. Erickson, our Chairman, and/or entities with which he is affiliated also have accounts payable and accrued liabilities \$421,599 and \$451,525 of as of September 30, 2021, and September 30, 2020, respectively, related to accrued compensation, accrued interest and expenses.

We owe \$2,255,066 under various convertible promissory notes as of September 30, 2021 including \$1,184,066 owed to entities controlled by our Chairman.

We may need additional financing, to service and/or repay these debt obligations. If we raise additional capital through borrowing or other debt financing, we may incur substantial interest expense. If and when we raise more equity capital in the future, it will result in substantial dilution to our current stockholders.

We have a history of operating losses and there can be no assurance that we can achieve or maintain profitability.

We have experienced net losses since inception. As of September 30, 2021, we had an accumulated deficit of \$81,326,000 and net losses in the amount of \$25,360,000, and \$13,563,000 for the years ended September 30, 2021 and 2020, respectively. We incurred non-cash expenses of \$17,701,000 and \$9,366,000 during the years ended September 30, 2021 and 2020, respectively

There can be no assurance that we will achieve or maintain profitability. If we achieve profitability in the future, we may not be able to sustain profitability in subsequent periods. Failure to become and remain profitable would impair our ability to sustain operations and adversely affect the price of our common stock and our ability to raise capital. Our operating expenses may increase as we spend resources on growing our business, and if our revenue does not correspondingly increase, our operating results and financial condition will suffer. Our Know Labs, Particle, and AI Mind businesses have produced minimal revenues and may not produce significant revenues in the near term, or at all, which would harm our ability to continue our operations or obtain additional financing and require us to reduce or discontinue our operations. You must consider our business and prospects in light of the risks and difficulties we will encounter as business with an early-stage technology in a new and rapidly evolving industry. We may not be able to successfully address these risks and difficulties, which could significantly harm our business, operating results and financial condition.

If the company were to dissolve or wind-up operations, holders of our common stock would not receive a liquidation preference.

If we were to wind-up or dissolve our company and liquidate and distribute our assets, our common stockholders would share in our assets only after we satisfy any amounts we owe to our creditors and preferred equity holders. If our liquidation or dissolution were attributable to our inability to profitably operate our business, then it is likely that we would have material liabilities at the time of liquidation or dissolution. Accordingly, it is very unlikely that sufficient assets will remain available after the payment of our creditors and preferred equity holders to enable common stockholders to receive any liquidation distribution with respect to any common stock.

We may not be able to generate sufficient revenue from the commercialization of our technology and related products to achieve or sustain profitability.

We are in the early stages of commercializing our technology. Failure to develop and sell products based upon our technology, grant additional licenses and obtain royalties or develop other revenue streams will have a material adverse effect on our business, financial condition and results of operations.

To date, we have generated minimal revenue from sales of our products. We believe that our commercialization success is dependent upon our ability to significantly increase the number of customers that are using our products. In addition, demand for our products may not materialize, or increase as quickly as planned, and we may therefore be unable to increase our revenue levels as expected. We are currently not profitable. Even if we succeed in introducing our technology and related products to our target markets, we may not be able to generate sufficient revenue to achieve or sustain profitability.

We currently rely in part upon external resources for engineering and product development services. If we are unable to secure an engineering or product development partner or establish satisfactory engineering and product development capabilities, we may not be able to successfully commercialize our technology.

Our success depends upon our ability to develop products that are accurate and provide solutions for our customers. Achieving the desired results for our customers requires solving engineering issues in concert with them. Any failure of our technology or related products to meet customer expectations could result in customers choosing to retain their existing methods or to adopt systems other than ours.

We have not historically had sufficient internal resources which can work on engineering and product development matters. We have used third parties in the past and will continue to do so. These resources are not always readily available, and the absence of their availability could inhibit our research and development efforts and our responsiveness to our customers. Our inability to secure those resources could impact our ability to provide engineering and product development services and could have an impact on our customers' willingness to use our technology.

We are in the early stages of commercialization and our technology and related products may never achieve significant commercial market acceptance.

Our success depends on our ability to develop and market products that are recognized as accurate and cost-effective. Many of our potential customers may be reluctant to use our new technology. Market acceptance will depend on many factors, including our ability to convince potential customers that our technology and related products are an attractive alternative to existing technologies. We will need to demonstrate that our products provide accurate and cost-effective alternatives to existing technologies. Compared to most competing technologies, our technology is relatively new, and most potential customers have limited knowledge of, or experience with, our products. Prior to implementing our technology and related products, some potential customers may be required to devote significant time and effort to testing and validating our products. In addition, during the implementation phase, some customers may be required to devote significant time and effort to training their personnel on appropriate practices to ensure accurate results from our technology and products. Any failure of our technology or related products to meet customer expectations could result in customers choosing to retain their existing testing methods or to adopt systems other than ours.

Many factors influence the perception of a system including its use by leaders in the industry. If we are unable to induce industry leaders in our target markets to implement and use our technology and related products, acceptance and adoption of our products could be slowed. In addition, if our products fail to gain significant acceptance in the marketplace and we are unable to expand our customer base, we may never generate sufficient revenue to achieve or sustain profitability.

Our management has concluded that we have material weaknesses in our internal controls over financial reporting and that our disclosure controls and procedures are not effective.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of a company's annual or interim financial statements will not be prevented or detected on a timely basis. During the audit of our financial statements for the year ended September 30, 2021, Management identified the following material weakness during its assessment of internal controls over financial reporting:

Personnel: We do not employ a full time Chief Financial Officer. Our Chairman serves as interim Chief Financial Officer. We also utilize a consultant who is a qualified Chief Financial Officer to assist with our financial reporting. This consultant has increased his involvement in the Company.

If these weaknesses continue, investors could lose confidence in the accuracy and completeness of our financial reports and other disclosures.

Our Particle, Inc. subsidiary was incorporated April 30, 2020, and has limited operating history.

Particle, Inc. was incorporated April 30, 2020, and to date has engaged in activities consisting primarily of research and development on threaded light bulbs that have a warm white light that can inactivate germs, including bacteria and viruses. On June 1, 2020, we approved and ratified entry into an intercompany Patent License Agreement dated May 21, 2020, with Particle. Pursuant to the Agreement, Particle received an exclusive non-transferrable license to use certain patents and trademarks of the Company, in exchange the Company shall receive: (i) a one-time fee of \$250,000 upon a successful financing of Particle, and (ii) a quarterly royalty payment equal to the greater of 5% of the Gross Sales, net of returns, from Particle or \$5,000. As of September 30, 2021, the operations of Particle have generated no sales and operations are just commencing. The first product, the Particle bulb can be used in households, businesses and other facilities to inactivate bacteria and viruses. Through internal preliminary testing, Particle personnel has confirmed the bulb's efficacy in inactivating common germs such as *E. coli* and *Staphylococcus*. A world renowned, CDC-regulated biosafety level-4 laboratory has tested the Particle bulb's ability to inactivate SARS-CoV-2, the virus that causes COVID-19. The results of these tests were successful, confirming the bulb's ability to deactivate Alpha and Delta variants of the virus.

To date, we have generated no revenue from Particle. We may not generate revenues in the near future while products are being developed. We believe that Particle's commercialization success is dependent upon its ability to develop successful products to take to market. In addition, once developed, demand for its products may not materialize, or increase as quickly as planned, and we may therefore be unable to increase our revenue levels as expected. Even if we succeed in introducing our technology and related products to our target markets, we may not be able to generate sufficient revenue to achieve or sustain profitability of the Particle subsidiary. The Company is also exploring strategic partnerships and distribution agreements for Particle. These efforts may not be successful which would adversely impact the sustainability of Particle.

Our AI Mind, Inc. subsidiary was incorporated on September 17, 2021, and has limited operating history.

The subsidiary, which is wholly owned by Know Labs, Inc. commenced activity in the last calendar quarter of 2021 and the first quarter of our 2022 fiscal year. It has generated its first revenues during the first quarter of fiscal 2022 time from its initial commercialization efforts related to the generation of NFT's. There can be no assurance that it will continue to generate revenues nor be successful in continuing its marketing of parent company assets. These assets rely on fundamental trade secrets which at this time are proprietary yet not protected by any pending patents. It may not be possible to protect these trade secrets which would impact the ability of AI Mind, Inc. to continue to generate revenues.

We are dependent on key personnel.

Our success depends to a significant degree upon the continued contributions of key management and other personnel, some of whom could be difficult to replace, including Ronald P. Erickson, our Chairman and Phil Bosua, our Chief Executive Officer. We maintain key person life insurance on our Chief Executive Officer, Phil Bosua. Our success will depend on the performance of our officers, our ability to retain and motivate our officers, our ability to integrate new officers into our operations, and the ability of all personnel to work together effectively as a team. Our failure to retain and recruit officers and other key personnel could have a material adverse effect on our business, financial condition and results of operations. Our success also depends on our continued ability to identify, attract, hire, train, retain and motivate highly skilled technical, managerial, manufacturing, administrative and sales and marketing personnel. Competition for these individuals is intense, and we may not be able to successfully recruit, assimilate or retain sufficiently qualified personnel. In particular, we may encounter difficulties in recruiting and retaining a sufficient number of qualified technical personnel, which could harm our ability to develop new products and adversely impact our relationships with existing and future customers. The inability to attract and retain necessary technical, managerial, manufacturing, administrative and sales and marketing personnel could harm our ability to obtain new customers and develop new products and could adversely affect our business and operating results.

We have limited insurance which may not cover claims by third parties against us or our officers and directors.

We have limited directors' and officers' liability insurance and commercial liability insurance policies. Claims by third parties against us may exceed policy amounts and we may not have amounts to cover these claims. Any significant claims would have a material adverse effect on our business, financial condition and results of operations. In addition, our limited directors' and officers' liability insurance may affect our ability to attract and retain directors and officers.

Our inability to effectively protect our intellectual property would adversely affect our ability to compete effectively, our revenue, our financial condition and our results of operations.

We rely on a combination of patent, trademark, and trade secret laws, confidentiality procedures and licensing arrangements to protect our intellectual property rights. Obtaining and maintaining a strong patent position is important to our business. Patent law relating to the scope of claims in the technology fields in which we operate is complex and uncertain, so we cannot be assured that we will be able to obtain or maintain patent rights, or that the patent rights we may obtain will be valuable, provide an effective barrier to competitors or otherwise provide competitive advantages. Others have filed, and in the future are likely to file, patent applications that are similar or identical to ours or those of our licensors. To determine the priority of inventions or demonstrate that we did not derive our invention from another, we may have to participate in interference or derivation proceedings in the USPTO or in court that could result in substantial costs in legal fees and could substantially affect the scope of our patent protection. We cannot be assured our patent applications will prevail over those filed by others. Also, our intellectual property rights may be subject to other challenges by third parties. Patents we obtain could be challenged in litigation or in administrative proceedings such as *ex parte* reexam, *inter partes* review, or post grant review in the United States or opposition proceedings in Europe or other jurisdictions.

There can be no assurance that:

- any of our existing patents will continue to be held valid, if challenged;
- patents will be issued for any of our pending applications;
- any claims allowed from existing or pending patents will have sufficient scope or strength to protect us;
- our patents will be issued in the primary countries where our products are sold in order to protect our rights and potential commercial advantage; or
- any of our products or technologies will not infringe on the patents of other companies.

If we are enjoined from selling our products, or if we are required to develop new technologies or pay significant monetary damages or are required to make substantial royalty payments, our business and results of operations would be harmed.

Obtaining and maintaining a patent portfolio entails significant expense and resources. Part of the expense includes periodic maintenance fees, renewal fees, annuity fees, various other governmental fees on patents and/or applications due in several stages over the lifetime of patents and/or applications, as well as the cost associated with complying with numerous procedural provisions during the patent application process. We may or may not choose to pursue or maintain protection for particular inventions. In addition, there are situations in which failure to make certain payments or noncompliance with certain requirements in the patent process can result in abandonment or lapse of a patent or patent application, resulting in partial or complete loss of patent rights in the relevant jurisdiction. If we choose to forgo patent protection or allow a patent application or patent to lapse purposefully or inadvertently, our competitive position could suffer.

Legal actions to enforce our patent rights can be expensive and may involve the diversion of significant management time. In addition, these legal actions could be unsuccessful and could also result in the invalidation of our patents or a finding that they are unenforceable. We may or may not choose to pursue litigation or interferences against those that have infringed on our patents, or used them without authorization, due to the associated expense and time commitment of monitoring these activities. If we fail to protect or to enforce our intellectual property rights successfully, our competitive position could suffer, which could have a material adverse effect on our results of operations and business.

Claims by others that our products infringe their patents or other intellectual property rights could prevent us from manufacturing and selling some of our products or require us to pay royalties or incur substantial costs from litigation or development of non-infringing technology.

In recent years, there has been significant litigation in the United States involving patents and other intellectual property rights. We may receive notices that claim we have infringed upon the intellectual property of others. Even if these claims are not valid, they could subject us to significant costs. Any such claims, with or without merit, could be time-consuming to defend, result in costly litigation, divert our attention and resources, cause product shipment delays or require us to enter into royalty or licensing agreements. Such royalty or licensing agreements, if required, may not be available on terms acceptable to us or at all. We have engaged in litigation and litigation may be necessary in the future to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Litigation may also be necessary to defend against claims of infringement or invalidity by others. A successful claim of intellectual property infringement against us and our failure or inability to license the infringed technology or develop or license technology with comparable functionality could have a material adverse effect on our business, financial condition and operating results.

If we are unable to secure a sales and marketing partner or establish satisfactory sales and marketing capabilities at Know Labs, we may not be able to successfully commercialize our technology.

If we are not successful entering into appropriate collaboration arrangements or recruiting sales and marketing personnel or in building a sales and marketing infrastructure, we will have difficulty successfully commercializing our technology, which would adversely affect our business, operating results and financial condition.

We may not be able to enter into collaboration agreements on terms acceptable to us or at all. In addition, even if we enter into such relationships, we may have limited or no control over the sales, marketing and distribution activities of these third parties. Our future revenues may depend heavily on the success of the efforts of these third parties. If we elect to establish a sales and marketing infrastructure, we may not realize a positive return on this investment. In addition, we must compete with established and well-funded pharmaceutical and biotechnology companies to recruit, hire, train and retain sales and marketing personnel. Factors that may inhibit our efforts to commercialize technology without strategic partners or licensees include:

- our inability to recruit and retain adequate numbers of effective sales and marketing personnel;
- the lack of complementary products to be offered by sales personnel, which may put us at a competitive disadvantage relative to companies with more extensive product lines; and
- unforeseen costs and expenses associated with creating an independent sales and marketing organization.

Government regulatory approval may be necessary before some of our products can be sold and there is no assurance such approval will be granted.

Our technology may have a number of potential applications in fields of use which will require prior governmental regulatory approval before the technology can be introduced to the marketplace. For example, we are exploring the use of our technology for certain medical diagnostic applications, with an initial focus on the monitoring of blood glucose.

There is no assurance that we will be successful in developing glucose monitoring medical applications for our technology.

If we were to be successful in developing glucose monitoring medical applications of our technology, prior clearance by the FDA and other governmental regulatory bodies will be required before the technology could be introduced into the marketplace.

There is no assurance that such regulatory approval would be obtained for a glucose monitoring medical diagnostic device or other applications requiring such approval.

The FDA can refuse to grant, delay, and limit or deny approval of an application for clearance of marketing a glucose monitoring device for many reasons.

We may not obtain the necessary regulatory approvals or clearances to market these glucose monitoring systems in the United States or outside of the United States.

Any delay in, or failure to receive or maintain, approval or clearance for our products could prevent us from generating revenue from these products or achieving profitability.

Cybersecurity risks and cyber incidents could result in the compromise of confidential data or critical data systems and give rise to potential harm to customers, remediation and other expenses, expose us to liability under HIPAA, consumer protection laws, or other common law theories, subject us to litigation and federal and state governmental inquiries, damage our reputation, and otherwise be disruptive to our business and operations.

Cyber incidents can result from deliberate attacks or unintentional events. We collect and store on our networks sensitive information, including intellectual property, proprietary business information and personally identifiable information of our customers. The secure maintenance of this information and technology is critical to our business operations. We have implemented multiple layers of security measures to protect the confidentiality, integrity and availability of this data and the systems and devices that store and transmit such data. We utilize current security technologies, and our defenses are monitored and routinely tested internally and by external parties. Despite these efforts, threats from malicious persons and groups, new vulnerabilities and advanced new attacks against information systems create risk of cybersecurity incidents. These incidents can include, but are not limited to, gaining unauthorized access to digital systems for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Because the techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems change frequently and may not immediately produce signs of intrusion, we may be unable to anticipate these incidents or techniques, timely discover them, or implement adequate preventative measures.

These threats can come from a variety of sources, ranging in sophistication from an individual hacker to malfeasance by employees, consultants or other service providers to state-sponsored attacks. Cyber threats may be generic, or they may be custom crafted against our information systems. Over the past several years, cyber-attacks have become more prevalent and much harder to detect and defend against. Our network and storage applications may be vulnerable to cyber-attack, malicious intrusion, malfeasance, loss of data privacy or other significant disruption and may be subject to unauthorized access by hackers, employees, consultants or other service providers. In addition, hardware, software or applications we develop or procure from third parties may contain defects in design or manufacture or other problems that could unexpectedly compromise information security. Unauthorized parties may also attempt to gain access to our systems or facilities through fraud, trickery or other forms of deceiving our employees, contractors and temporary staff.

There can be no assurance that we will not be subject to cybersecurity incidents that bypass our security measures, impact the integrity, availability or privacy of personal health information or other data subject to privacy laws or disrupt our information systems, devices or business, including our ability to deliver services to our customers. As a result, cybersecurity, physical security and the continued development and enhancement of our controls, processes and practices designed to protect our enterprise, information systems and data from attack, damage or unauthorized access remain a priority for us. As cyber threats continue to evolve, we may be required to expend significant additional resources to continue to modify or enhance our protective measures or to investigate and remediate any cybersecurity vulnerabilities.

We may engage in acquisitions, mergers, strategic alliances, joint ventures and divestitures that could result in final results that are different than expected.

In the normal course of business, we engage in discussions relating to possible acquisitions, equity investments, mergers, strategic alliances, joint ventures and divestitures. Such transactions are accompanied by a number of risks, including the use of significant amounts of cash, potentially dilutive issuances of equity securities, incurrence of debt on potentially unfavorable terms as well as impairment expenses related to goodwill and amortization expenses related to other intangible assets, the possibility that we may pay too much cash or issue too many of our shares as the purchase price for an acquisition relative to the economic benefits that we ultimately derive from such acquisition, and various potential difficulties involved in integrating acquired businesses into our operations.

From time to time, we have also engaged in discussions with candidates regarding the potential acquisitions of our product lines, technologies and businesses. If a divestiture such as this does occur, we cannot be certain that our business, operating results and financial condition will not be materially and adversely affected. A successful divestiture depends on various factors, including our ability to effectively transfer liabilities, contracts, facilities and employees to any purchaser; identify and separate the intellectual property to be divested from the intellectual property that we wish to retain; reduce fixed costs previously associated with the divested assets or business; and collect the proceeds from any divestitures.

If we do not realize the expected benefits of any acquisition or divestiture transaction, our financial position, results of operations, cash flows and stock price could be negatively impacted.

We have made strategic acquisitions in the past and may do so in the future, and if the acquired companies do not perform as expected, this could adversely affect our operating results, financial condition and existing business.

We may continue to expand our business through strategic acquisitions. The success of any acquisition will depend on, among other things:

- the availability of suitable candidates;
- higher than anticipated acquisition costs and expenses;
- competition from other companies for the purchase of available candidates;
- our ability to value those candidates accurately and negotiate favorable terms for those acquisitions;
- the availability of funds to finance acquisitions and obtaining any consents necessary under our credit facility;
- the ability to establish new informational, operational and financial systems to meet the needs of our business;
- the ability to achieve anticipated synergies, including with respect to complementary products or services; and
- the availability of management resources to oversee the integration and operation of the acquired businesses.

We may not be successful in effectively integrating acquired businesses and completing acquisitions in the future. We also may incur substantial expenses and devote significant management time and resources in seeking to complete acquisitions. Acquired businesses may fail to meet our performance expectations. If we do not achieve the anticipated benefits of an acquisition as rapidly as expected, or at all, investors or analysts may not perceive the same benefits of the acquisition as we do. If these risks materialize, our stock price could be materially adversely affected.

We are subject to corporate governance and internal control requirements, and our costs related to compliance with, or our failure to comply with existing and future requirements could adversely affect our business.

We must comply with corporate governance requirements under the Sarbanes-Oxley Act of 2002 and the Dodd–Frank Wall Street Reform and Consumer Protection Act of 2010, as well as additional rules and regulations currently in place and that may be subsequently adopted by the SEC and the Public Company Accounting Oversight Board. These laws, rules, and regulations continue to evolve and may become increasingly stringent in the future. The financial cost of compliance with these laws, rules, and regulations is expected to remain substantial.

We cannot assure you that we will be able to fully comply with these laws, rules, and regulations that address corporate governance, internal control reporting, and similar matters in the future. Failure to comply with these laws, rules and regulations could materially adversely affect our reputation, financial condition, and the value of our securities.

The exercise prices of certain warrants, convertible notes payable and the Series C and D Preferred Shares may require further adjustment.

In the future, if we sell our common stock at a price below \$0.25 per share, the exercise price of 8,108,356 outstanding shares of Series C and D Preferred Stock that adjust below \$0.25 per share pursuant to the documents governing such instruments. In addition, the conversion price of Convertible Notes Payable of \$16,464,066 or 16,124,764 common shares (9,020,264 common shares at \$0.25 per share and 7,104,500 at \$2.00) and the exercise price of additional outstanding warrants to purchase 10,384,381 shares of common stock would adjust below \$0.25 per share pursuant to the documents governing such instruments. Warrants totaling 4,487,207 would adjust below \$1.20 per share pursuant to the documents governing such instruments. Warrants totaling 3,954,625 would adjust below \$2.40 per share pursuant to the documents governing such instruments.

Risks Relating to Our Stock

The price of our common stock is volatile, which may cause investment losses for our stockholders.

The market price of our common stock has been and is likely in the future to be volatile. Our common stock price may fluctuate in response to factors such as:

- Announcements by us regarding liquidity, significant acquisitions, equity investments and divestitures, strategic relationships, addition or loss of significant customers and contracts, capital expenditure commitments and litigation;
- Issuance of convertible or equity securities and related warrants for general or merger and acquisition purposes;
- Issuance or repayment of debt, accounts payable or convertible debt for general or merger and acquisition purposes;
- Sale of a significant number of shares of our common stock by stockholders;
- General market and economic conditions;
- Quarterly variations in our operating results;
- Investor and public relation activities;
- Announcements of technological innovations;
- New product introductions by us or our competitors;
- Competitive activities;
- Low liquidity; and
- Additions or departures of key personnel.

These broad market and industry factors may have a material adverse effect on the market price of our common stock, regardless of our actual operating performance. These factors could have a material adverse effect on our business, financial condition, and results of operations.

The sale of a significant number of our shares of common stock could depress the price of our common stock.

As of September 30, 2021, we had 35,166,551 shares of common stock issued and outstanding, held by 163 stockholders of record. The number of stockholders, including beneficial owners holding shares through nominee names, is approximately 3,600. Each share of common stock entitles its holder to one vote on each matter submitted to the stockholders for a vote, and no cumulative voting for directors is permitted. Stockholders do not have any preemptive rights to acquire additional securities issued by the Company. As of September 30, 2021, there were options outstanding for the purchase of 15,315,120 common shares (including unearned stock option grants totaling 11,775,745 shares related to performance targets), warrants for the purchase of 22,564,255 common shares, and 8,108,356 shares of the Company's common stock issuable upon the conversion of Series C and Series D Convertible Preferred Stock. In addition, the Company currently has 16,124,764 common shares (9,020,264 common shares at the current price of \$0.25 per share and 7,104,500 common shares at the current price of \$2.00 per share) reserved and are issuable upon conversion of convertible debentures of \$16,464,066. All of which could potentially dilute future earnings per share but are excluded from the September 30, 2021, calculation of net loss per share because their impact is antidilutive.

Significant shares of common stock are held by our principal stockholders, other company insiders and other large stockholders. As "affiliates" of Know Labs, as defined under Securities and Exchange Commission Rule 144 under the Securities Act of 1933, our principal stockholders, other of our insiders and other large stockholders may only sell their shares of common stock in the public market pursuant to an effective registration statement or in compliance with Rule 144.

These options, warrants, convertible notes payable and convertible preferred stock could result in further dilution to common stockholders and may affect the market price of the common stock.

Future issuance of additional shares of common stock and/or preferred stock could dilute existing stockholders. We have and may issue preferred stock that could have rights that are preferential to the rights of common stock that could discourage potentially beneficial transactions to our common stockholders.

Pursuant to our certificate of incorporation, after the annual shareholder meeting held on October 15, 2021, we currently have authorized 200,000,000 shares of common stock and 5,000,000 shares of preferred stock. To the extent that common shares are available for issuance, subject to compliance with applicable stock exchange listing rules, our board of directors has the ability to issue additional shares of common stock in the future for such consideration as the board of directors may consider sufficient. The issuance of any additional securities could, among other things, result in substantial dilution of the percentage ownership of our stockholders at the time of issuance, result in substantial dilution of our earnings per share and adversely affect the prevailing market price for our common stock.

An issuance of additional shares of preferred stock could result in a class of outstanding securities that would have preferences with respect to voting rights and dividends and in liquidation over our common stock and could, upon conversion or otherwise, have all of the rights of our common stock. Our Board of Directors' authority to issue preferred stock could discourage potential takeover attempts or could delay or prevent a change in control through merger, tender offer, proxy contest or otherwise by making these attempts more difficult or costly to achieve. The issuance of preferred stock could impair the voting, dividend and liquidation rights of common stockholders without their approval.

Future capital raises may dilute our existing stockholders' ownership and/or have other adverse effects on our operations.

If we raise additional capital by issuing equity securities, our existing stockholders' percentage ownership will be reduced, and these stockholders may experience substantial dilution. We may also issue equity securities that provide for rights, preferences and privileges senior to those of our common stock. If we raise additional funds by issuing debt securities, these debt securities would have rights senior to those of our common stock and the terms of the debt securities issued could impose significant restrictions on our operations, including liens on our assets. If we raise additional funds through collaborations and licensing arrangements, we may be required to relinquish some rights to our technologies or candidate products, or to grant licenses on terms that are not favorable to us.

We do not anticipate paying any cash dividends on our capital stock in the foreseeable future.

We have never declared or paid cash dividends on our capital stock. We currently intend to retain all of our future earnings, if any, to finance the growth and development of our business, and we do not anticipate paying any cash dividends on our capital stock in the foreseeable future. In addition, the terms of any future debt agreements may preclude us from paying dividends. As a result, capital appreciation, if any, of our common stock will be your sole source of gain for the foreseeable future.

Anti-takeover provisions may limit the ability of another party to acquire our company, which could cause our stock price to decline.

Our certificate of incorporation, as amended, our bylaws and Nevada law contain provisions that could discourage, delay or prevent a third party from acquiring our company, even if doing so may be beneficial to our stockholders. In addition, these provisions could limit the price investors would be willing to pay in the future for shares of our common stock.

Our articles of incorporation allow for our board to create new series of preferred stock without further approval by our stockholders, which could adversely affect the rights of the holders of our common stock.

Our Board of Directors has the authority to fix and determine the relative rights and preferences of preferred stock. Our Board of Directors also has the authority to issue preferred stock without further stockholder approval. As a result, our Board of Directors could authorize the issuance of a series of preferred stock that would grant to holders the preferred right to our assets upon liquidation, the right to receive dividend payments before dividends are distributed to the holders of common stock and the right to the redemption of the shares, together with a premium, prior to the redemption of our common stock. In addition, our Board of Directors could authorize the issuance of a series of preferred stock that has greater voting power than our common stock or that is convertible into our common stock, which could decrease the relative voting power of our common stock or result in dilution to our existing stockholders.

We or our manufacturers may be unable to obtain or maintain international regulatory clearances or approvals for our current or future products, or our distributors may be unable to obtain necessary qualifications, which could harm our business.

Sales of the Know Labs products internationally are subject to foreign regulatory requirements that vary widely from country to country. In addition, the FDA regulates exports of medical devices from the U.S. Complying with international regulatory requirements can be an expensive and time-consuming process, and marketing approval or clearance is not certain. The time required to obtain clearances or approvals, if required by other countries, may be longer than that required for FDA clearance or approvals, and requirements for such clearances or approvals may significantly differ from FDA requirements. We may rely on third-party distributors to obtain regulatory clearances and approvals required in other countries, and these distributors may be unable to obtain or maintain such clearances or approvals. Our distributors may also incur significant costs in attempting to obtain and in maintaining foreign regulatory approvals or clearances, which could increase the difficulty of attracting and retaining qualified distributors. If our distributors experience delays in receiving necessary qualifications, clearances or approvals to market our products outside the U.S., or if they fail to receive those qualifications, clearances or approvals, we may be unable to market our products or enhancements in international markets effectively, or at all.

Foreign governmental authorities that regulate the manufacture and sale of medical devices have become increasingly stringent and, to the extent we market and sell our products outside of the U.S., we may be subject to rigorous international regulation in the future. In these circumstances, we would be required to rely on our foreign independent distributors to comply with the varying regulations, and any failures on their part could result in restrictions on the sale of our product in foreign countries.

ITEM 1B. UNRESOLVED STAFF COMMENTS

There are no unresolved SEC staff comments.

ITEM 2. PROPERTIES

Corporate Offices

On April 13, 2017, we leased our executive office located at 500 Union Street, Suite 810, Seattle, Washington, USA, 98101. We lease 943 square feet and the current net monthly payment is \$3,334. The monthly payment increases approximately 3% each year and the lease expires on May 31, 2022.

Lab Facilities and Executive Offices

On February 1, 2019, we leased our lab facilities and executive offices located at 915 E Pine Street, Suite 212, Seattle, WA 98122. We lease 2,642 square feet and the net monthly payment at September 30, 2021 is \$8,697. The monthly payment increases approximately 3% annually each year on July 1. The lease expires on June 30, 2024.

ITEM 3. LEGAL PROCEEDINGS

We may from time to time become a party to various legal proceedings arising in the ordinary course of our business. We are currently not a party to any pending legal proceeding that is not ordinary routine litigation incidental to our business.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Authorized Capital Stock

At September 30, 2021, we have authorized 105,000,000 shares of capital stock, of which 100,000,000 are shares of voting common stock, par value \$0.001 per share, and 5,000,000 are shares of preferred stock, par value \$0.001 per share. At the annual shareholder meeting held on October 15, 2021, our authorized shares of common stock was increased to 200,000,000 shares of voting common stock, par value \$0.001 per share. We have authorized 5,000,000 are shares of preferred stock, par value \$0.001 per share.

As of September 30, 2021, we had 35,166,551 shares of common stock issued and outstanding, held by 163 stockholders of record. The number of stockholders, including beneficial owners holding shares through nominee names, is approximately 3,600. Each share of common stock entitles its holder to one vote on each matter submitted to the stockholders for a vote, and no cumulative voting for directors is permitted. Stockholders do not have any preemptive rights to acquire additional securities issued by the Company. As of September 30, 2021, there were options outstanding for the purchase of 15,315,120 common shares (including unearned stock option grants totaling 11,775,745 shares related to performance targets), warrants for the purchase of 22,564,255 common shares, and 8,108,356 shares of the Company's common stock issuable upon the conversion of Series C and Series D Convertible Preferred Stock. In addition, we currently have 16,124,764 common shares (9,020,264 common shares at the current price of \$0.25 per share and 7,104,500 common shares at the current price of \$2.00 per share) reserved and are issuable upon conversion of convertible debentures of \$16,464,066. All of which could potentially dilute future earnings per share but are excluded from the September 30, 2021, calculation of net loss per share because their impact is antidilutive.

Series C and D Preferred Stock and Warrants

On August 5, 2016, we closed a Series C Preferred Stock and Warrant Purchase Agreement with Clayton A. Struve, an accredited investor for the purchase of \$1,250,000 of preferred stock with a conversion price of \$0.70 per share. The preferred stock has a yield of 8% and an ownership blocker of 4.99%. In addition, Mr. Struve received a five-year warrant to acquire 1,785,714 shares of common stock at \$0.70 per share. On August 14, 2017, the price of the Series C Stock were adjusted to \$0.25 per share pursuant to the documents governing such instruments. On September 30, 2021 and 2020 there are 1,785,715 Series C Preferred shares outstanding. On January 5, 2021, the Company extended the warrant expiration date to August 4, 2023.

As of September 30, 2021 and 2020, we have \$750,000 of Series D Preferred Stock outstanding with Clayton A. Struve, an accredited investor. On August 14, 2017, the price of the Series D Stock were adjusted to \$0.25 per share pursuant to the documents governing such instruments. The Series D Preferred Stock is convertible into shares of common stock at a price of \$0.25 per share or by multiplying the number of Series D Preferred Stock shares by the stated value and dividing by the conversion price then in effect, subject to certain diluted events, and has the right to vote the number of shares of common stock the Series D Preferred Stock would be issuable on conversion, subject to a 4.99% blocker. The Preferred Series D has an annual yield of 8% if and when dividends are declared.

Series F Preferred Stock

On August 1, 2018, we filed with the State of Nevada a Certificate of Designation establishing the Designations, Preferences, Limitations and Relative Rights of Series F Preferred Stock. The Designation authorized 500 shares of Series F Preferred Stock. The Series F Preferred Stock shall only be issued to the current Board of Directors on the date of the Designation's filing and is not convertible into common stock. As set forth in the Designation, the Series F Preferred Stock has no rights to dividends or liquidation preference and carries rights to vote 100,000 shares of common stock per share of Series F upon a Trigger Event, as defined in the Designation. A Trigger Event includes certain unsolicited bids, tender offers, proxy contests, and significant share purchases, all as described in the Designation. Unless and until a Trigger Event, the Series F shall have no right to vote. The Series F Preferred Stock shall remain issued and outstanding until the date which is 731 days after the issuance of Series F Preferred Stock ("Explosion Date"), unless a Trigger Event occurs, in which case the Explosion Date shall be extended by 183 days. As of September 30, 2021 and 2020, there are no Series F shares outstanding.

Securities Subject to Price Adjustments

In the future, if we sell our common stock at a price below \$0.25 per share, the exercise price of 8,108,356 outstanding shares of Series C and D Preferred Stock that adjust below \$0.25 per share pursuant to the documents governing such instruments. In addition, the conversion price of Convertible Notes Payable of \$16,464,066 or 16,124,764 common shares (9,020,264 common shares at \$0.25 per share and 7,104,500 at \$2.00) and the exercise price of additional outstanding warrants to purchase 10,384,381 shares of common stock would adjust below \$0.25 per share pursuant to the documents governing such instruments. Warrants totaling 4,487,207 would adjust below \$1.20 per share pursuant to the documents governing such instruments. Warrants totaling 3,954,625 would adjust below \$2.40 per share pursuant to the documents governing such instruments.

Common Stock

All of the offerings and sales described below were deemed to be exempt under Rule 506 of Regulation D and/or Section 4(a)(2) of the Securities Act. No advertising or general solicitation was employed in offering the securities, the offerings and sales were made to a limited number of persons, all of whom were accredited investors and transfer was restricted by the company in accordance with the requirements of Regulation D and the Securities Act. All issuances to accredited and non-accredited investors were structured to comply with the requirements of the safe harbor afforded by Rule 506 of Regulation D, including limiting the number of non-accredited investors to no more than 35 investors who have sufficient knowledge and experience in financial and business matters to make them capable of evaluating the merits and risks of an investment in our securities.

Stock Incentive Plan

On January 23, 2019, the Board approved an amendment to its 2011 Stock Incentive Plan increasing the number of shares of common stock reserved under the Incentive Plan from 2,200,000 to 2,500,000 to common shares. On May 22, 2019, the Compensation Committee approved an amendment to its 2011 Stock Incentive Plan increasing the number of shares of common stock reserved under the Incentive Plan from 2,500,000 to 3,000,000 to common shares. On November 23, 2020, the Board of Directors increased the size of the stock available under the Stock Option Plan by 9,750,000 shares. This increase is based on an industry peer group study.

On October 15, 2021, at the 2021 annual shareholder meeting, our shareholders approved and adopted the 2021 Equity Incentive Plan, increasing size of the stock available under the Stock Option Plan to 20,000,000 shares. On December 10, 2021, we filed a registration statement on Form S-8 that registered 34,650,120 shares issued under the 2021 Equity Incentive Plan. No future awards will be issued under the 2011 Plan.

Anti-Takeover Provisions

Nevada Revised Statutes

Acquisition of Controlling Interest Statutes. Nevada's "acquisition of controlling interest" statutes contain provisions governing the acquisition of a controlling interest in certain Nevada corporations. These "control share" laws provide generally that any person who acquires a "controlling interest" in certain Nevada corporations may be denied certain voting rights, unless a majority of the disinterested stockholders of the corporation elects to restore such voting rights. These statutes provide that a person acquires a "controlling interest" whenever a person acquires shares of a subject corporation that, but for the application of these provisions of the Nevada Revised Statutes, would enable that person to exercise (1) one-fifth or more, but less than one-third, (2) one-third or more, but less than a majority or (3) a majority or more, of all of the voting power of the corporation in the election of directors. Once an acquirer crosses one of these thresholds, shares which it acquired in the transaction taking it over the threshold and within the 90 days immediately preceding the date when the acquiring person acquired or offered to acquire a controlling interest become "control shares" to which the voting restrictions described above apply. Our articles of incorporation and bylaws currently contain no provisions relating to these statutes, and unless our articles of incorporation or bylaws in effect on the tenth day after the acquisition of a controlling interest were to provide otherwise, these laws would apply to us if we were to (i) have 200 or more stockholders of record (at least 100 of which have addresses in the State of Nevada appearing on our stock ledger) and (ii) do business in the State of Nevada directly or through an affiliated corporation. As of September 30, 2021 we have less than 200 record stockholders. If these laws were to apply to us, they might discourage companies or persons interested in acquiring a significant interest in or control of the company, regardless of whether such acquisition may be in the interest of our stockholders.

Combinations with Interested Stockholders Statutes. Nevada's "combinations with interested stockholders" statutes prohibit certain business "combinations" between certain Nevada corporations and any person deemed to be an "interested stockholder" for two years after the such person first becomes an "interested stockholder" unless (i) the corporation's board of directors approves the combination (or the transaction by which such person becomes an "interested stockholder") in advance, or (ii) the combination is approved by the board of directors and sixty percent of the corporation's voting power not beneficially owned by the interested stockholder, its affiliates and associates. Furthermore, in the absence of prior approval certain restrictions may apply even after such two-year period. For purposes of these statutes, an "interested stockholder" is any person who is (x) the beneficial owner, directly or indirectly, of ten percent or more of the voting power of the outstanding voting shares of the corporation, or (y) an affiliate or associate of the corporation and at any time within the two previous years was the beneficial owner, directly or indirectly, of ten percent or more of the voting power of the then outstanding shares of the corporation. The definition of the term "combination" is sufficiently broad to cover most significant transactions between the corporation and an "interested stockholder". Subject to certain timing requirements set forth in the statutes, a corporation may elect not to be governed by these statutes. We have not included any such provision in our articles of incorporation.

The effect of these statutes may be to potentially discourage parties interested in taking control of us from doing so if it cannot obtain the approval of our Board of Directors.

Articles of Incorporation and Bylaws Provisions

Our articles of incorporation, as amended and restated, and our bylaws, as amended and restated, contain provisions that could have the effect of discouraging potential acquisition proposals or tender offers or delaying or preventing a change in control, including changes a stockholder might consider favorable. In particular, our articles of incorporation and bylaws, among other things:

- permit our Board of Directors to alter our bylaws without stockholder approval;
- provide that vacancies on our Board of Directors may be filled by a majority of directors in office, although less than a quorum;
- authorize the issuance of preferred stock, which can be created and issued by our Board of Directors without prior stockholder approval, with rights senior to our common stock, which may render more difficult or discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise; and
- establish advance notice procedures with respect to stockholder proposals relating to the nomination of candidates for election as directors and other business to be brought before stockholder meetings, which notice must contain information specified in our bylaws.

However, these provisions could have the effect of discouraging others from making tender offers for our shares that could result from actual or rumored takeover attempts. These provisions also may have the effect of preventing changes in our management.

Market Price of and Dividends on Common Equity and Related Stockholder Matters

Our common stock trades on the OTCQB Exchange under the symbol "KNWN." Trades in our common stock may be subject to Rule 15c-9 of the Exchange Act, which imposes requirements on broker/dealers who sell securities subject to the rule to persons other than established customers and accredited investors. For transactions covered by the rule, broker/dealers must make a special suitability determination for purchasers of the securities and receive the purchaser's written agreement to the transaction before the sale.

Period Ended	High	Low
Year Ending September 30, 2022		
Through December 17, 2021	\$ 2.60	\$ 1.48
Year Ending September 30, 2021		
September 30, 2021	\$ 3.95	\$ 2.06
June 30, 2021	\$ 4.24	\$ 1.70
March 31, 2021	\$ 4.61	\$ 1.60
December 31, 2020	\$ 2.95	\$ 1.10
Year Ending September 30, 2020		
September 30, 2020	\$ 3.45	\$ 1.71
June 30, 2020	\$ 2.65	\$ 0.81
March 31, 2020	\$ 2.90	\$ 0.90
December 31, 2019	\$ 1.95	\$ 0.92

As of December 17, 2021, the high and low sales price of our common stock was \$2.02 per share and \$2.20 per share, respectively. As of December 17, 2021, we had 35,969,992 shares of common stock issued and outstanding, held by 160 stockholders of record. This number does not include approximately 3,600 beneficial owners whose shares are held in the names of various security brokers, dealers and registered clearing agencies.

Transfer Agent

Our transfer agent is American Stock Transfer & Trust Company located at 6201 15th Avenue, Brooklyn, New York 11219, and their telephone number is (800) 937-5449.

Dividend Policy

We have not previously declared or paid any cash dividends on our common stock and do not anticipate or contemplate paying dividends on our common stock in the foreseeable future. We currently intend to use all of our available funds to finance the growth and development of our business. We can give no assurances that we will ever have excess funds available to pay dividends.

Recent Sales of Unregistered Securities

During the three months ended September 30, 2021, we had the following sales of unregistered sales of equity securities:

We issued 966,282 shares of common stock at an average price of \$0.629 per share or \$600,000 related to the exercise of warrants.

We issued 480,600 shares of common stock at an average price of \$2.00 per share or \$961,200 related to the conversion of Particle Simple Agreements for Future Equity into our common shares.

Equity Compensation Information

The following table provides information as of September 30, 2021 related to the equity compensation plan in effect at that time.

Plan Category	(a)	(b)	(c)
	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plan (excluding securities reflected in column (a))
Equity compensation plan approved by shareholders	15,315,120	\$ 1.565	4,684,880
Equity compensation plans not approved by shareholders	-	-	-
Total	15,315,120	\$ 1.565	4,684,880

As of September 30, 2021, there were options outstanding for the purchase of 15,315,120 common shares (including unearned stock option grants totaling 11,775,745 shares related to performance targets).

ITEM 6. SELECTED FINANCIAL DATA

Summary Financial Information

In the following table, we provide you with our selected consolidated historical financial and other data. We have prepared the consolidated selected financial information using our consolidated financial statements for the years ended September 30, 2021 through September 30, 2016. When you read this selected consolidated historical financial and other data, it is important that you read along with it the historical financial statements and related notes in our consolidated financial statements included in this report and prior 10-K filings, as well as Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and related notes appearing at the end of this prospectus. Some of the information contained in this discussion and analysis or set forth elsewhere in this prospectus, including information with respect to our plans and strategy for our business and related financing, includes forward-looking statements that involve risks and uncertainties. You should read the “Risk Factors” section of this prospectus for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

We are focused on the development and commercialization of proprietary biosensor technologies which, when paired with our AI deep learning platform, are capable of uniquely identifying and measuring almost any material or analyte using electromagnetic energy to detect, record, identify and measure the unique “signature” of said materials or analytes. We call these our “Bio-RFID™” technology platform when pertaining to radio and microwave spectroscopy; and “ChromaID” technology platform when pertaining to optical spectroscopy. The data obtained with our biosensor technology is analyzed with our trade secret algorithms which are driven by our AI Deep Learning platform.

ChromaID is the first technology developed and patented by the Company. For the past several years, we have focused upon extensions and new patentable inventions that are derived from and extend beyond our ChromaID technology and intellectual property. We call this technology platform Bio-RFID. The rapid advances made with our Bio-RFID technology in our laboratory have caused us to move quickly into the commercialization phase of our Company as we work to create revenue generating products for the marketplace. Today, the primary focus of the Company is on its Bio-RFID technology, its commercialization and development of related patent assets. Through its wholly owned subsidiary corporations the Company works to exploit additional opportunities and markets that its broad intellectual property and trade secret portfolio addresses.

On April 30, 2020, we incorporated a subsidiary corporation, Particle, Inc. for the purpose of research and development on non-core Company intellectual property. The first research activity, undertaken by a separate Particle team has been on standard threaded light bulbs that have a warm white light that can inactivate germs, including bacteria and viruses. On June 1, 2020, we approved and ratified entry into an intercompany Patent License Agreement dated May 21, 2020 with Particle. Pursuant to the Agreement, Particle received an exclusive non-transferrable license to use certain patents and trademarks of the Company, in exchange the Company shall receive: (i) a one-time fee of \$250,000 upon a successful financing of Particle, and (ii) a quarterly royalty payment equal to the greater of 5% of the Gross Sales, net of returns, from Particle or \$5,000. As of September 30, 2021, the operations of Particle have generated no sales and operations are just commencing. The first product, the Particle bulb can be used in households, businesses, and other facilities to inactivate bacteria and viruses. Through internal preliminary testing, Particle personnel has confirmed the bulb's efficacy in inactivating common germs such as *E. coli* and *Staphylococcus*. Final study results from Texas Biomedical Research Institute indicate the Particle bulb's ability to inactivate SARS-CoV-2, the virus that causes COVID-19 and most recently, the Alpha and Delta variants of the virus that causes COVID-19. The Particle team is working on certification, labeling, product manufacturing and related go-to-market requirements; as well as business development activities related to interest from potential strategic and channel partners in both consumer and business applications.

On September 17, 2021 we incorporated a subsidiary corporation, AI Mind, Inc. for the purpose of identifying and capitalizing upon market opportunities for its AI Deep Learning Platform. The first activity undertaken by the subsidiary was the creation of graphical images expressed as Non-Fungible Tokens ("NFTs") utilizing the AI Deep Learning Platform and our data. We plan to explore other opportunities to monetize its AI Deep Learning Platform over time.

In 2010, we acquired TransTech Systems, Inc. as an adjunct to our business. Operating as an independent subsidiary, TransTech was a distributor of products for employee and personnel identification and authentication. TransTech historically provided substantially all of the Company's revenues. The financial results from our TransTech subsidiary had been diminishing as vendors of their products increasingly moved to the Internet and direct sales to their customers. TransTech closed on June 30, 2020.

RESULTS OF OPERATIONS

The following table presents certain consolidated statement of operations information and presentation of that data as a percentage of change from year-to-year.

(dollars in thousands)

	Years Ended December 31,			
	2021	2020	\$ Variance	% Variance
Revenue	\$ -	\$ 122	\$ (122)	-100.0%

(Loss) before income taxes	(25,360)	(13,563)	(11,797)	-87.0%
Income taxes - current (benefit)	-	-	-	0.0%
Net (loss)	\$ (25,360)	\$ (13,563)	\$ (11,797)	-87.0%

YEAR ENDED SEPTEMBER 30, 2021 COMPARED TO THE YEAR ENDED SEPTEMBER 30, 2020

Sales

Revenue for the year ended September 30, 2021 decreased \$122,000 to \$0 as compared to \$122,000 for the year ended September 30, 2020. TransTech closed September 30, 2020.

Cost of Sales

Cost of sales for the year ended September 30, 2021 decreased \$70,000 to \$0 as compared to \$70,000 for the year ended September 30, 2020. TransTech closed September 30, 2020.

Research and Development Expenses

Research and development expenses for the year ended September 30, 2021 increased \$1,936,000 to \$3,970,000 as compared to \$2,034,000 for the year ended September 30, 2020. The increase was due to increased personnel, use of consultant and expenditures related to the development of our Bio-RFID™ and Particle technologies.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the year ended September 30, 2021 increased \$1,632,000 to \$6,476,000 as compared to \$4,844,000 for the year ended September 30, 2020.

The increase primarily was primarily due to increased stock based compensation of \$1,873,000. On December 15, 2020, we issued a warrant to Ronald P. Erickson for 2,000,000 shares of common stock. The five year warrant is exercisable at \$1.53 per share and was valued using a “Black-Scholes” model at \$1,812,000.

As part of the selling, general and administrative expenses for the years ended September 30, 2021 and 2020, we recorded \$613,000 and \$206,000, respectively, of investor relationship expenses and business development expenses.

Other (Expense), Net

Other expense, net for the year ended September 30, 2021 was \$14,914,000 as compared to other expense, net of \$6,737,000 for the year ended September 30, 2020. The other expense, net for the year ended September 30, 2021 included The interest expense related to convertible notes payable and the amortization of the beneficial conversion feature and value of warrants issued. During the year ended September 30, 2020, we closed a private placement and received gross proceeds of \$14,914,000 in exchange for issuing Subordinated Convertible Notes and Warrants in a private placement to accredited investors, pursuant to a series of substantially identical Securities Purchase Agreements, Common Stock Warrants, and related documents.

Other expense, net for the year ended September 30, 2020 was \$6,737,000 as compared to other expense, net of \$2,599,000 for the year ended September 30, 2019. The other expense for the year ended September 30, 2020 included (i) interest expense of \$6,094,000 and (ii) loss on debt settlement of \$708,000, offset by (iii) other income of \$65,000. The interest expense related to convertible notes payable and the amortization of the beneficial conversion feature and value of warrants issued. During the year ended September 30, 2020, we closed a private placement and received gross proceeds of \$5,639,500 in exchange for issuing Subordinated Convertible Notes and Warrants in a private placement to accredited investors, pursuant to a series of substantially identical Securities Purchase Agreements, Common Stock Warrants, and related documents. The gain on debt settlements related to the settlement of old accounts payable. On July 1, 2020, we entered into a Settlement Agreement and General Mutual Release with a shareholder of the Company. On July 6, 2020, the shareholder paid \$125,000 to us and we issued 500,000 shares of common stock. We accrued for the loss on debt settlement of \$825,000 as of June 30, 2020. This loss was reduced by a gain on settlement of certain TransTech liabilities of approximately \$117,000.

Net Loss

Net loss for the year ended September 30, 2021 was \$25,360,000 as compared to \$13,563,000 for the year ended September 30, 2020. The net loss for the year ended September 30, 2021 included non-cash expenses of \$17,701,000. The non-cash items include (i) depreciation and amortization of \$201,000; (ii) issuance for capital stock for services and expenses of \$203,000; (iii) stock based compensation- warrants of \$2,547,000; (iv) stock based compensation- stock options of \$1,029,000; (v) amortization of debt discount as interest expense of \$13,722,000; and offset by (vi) other of \$1,000. On December 15, 2020, we issued a warrant to Ronald P. Erickson for 2,000,000 shares of common stock. The five year warrant is convertible at \$1.53 per share and was valued using a “Black-Scholes” model at \$1,812,000.

[Table of Contents](#)

The net loss for the year ended September 30, 2020 included non-cash items of non-cash expenses of \$9,366,000. The non-cash items include (i) depreciation and amortization of \$243,000; (ii) issuance of capital stock for services and expenses of \$1,045,000; (iii) stock based compensation of \$1,702,000; (iv) amortization of debt discount as interest expense of \$5,663,000; (v) loss on debt settlement of \$825,000; and (vi) other of \$5,000, offset by (vii) gain on debt settlement of \$117,000.

We expect losses to continue as we commercialize our ChromaID™ and Bio-RFID™ technology.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is the ability of a company to generate funds to support its current and future operations, satisfy its obligations, and otherwise operate on an ongoing basis. Significant factors in the management of liquidity are funds generated by operations, levels of accounts receivable and accounts payable and capital expenditures.

We had cash of approximately \$12,258,000 and net working capital of approximately \$10,093,000 (net of convertible notes payable and right of use asset and liabilities) as of September 30, 2021. We have experienced net losses since inception and we expect losses to continue as we commercialize our ChromaID™ technology. As of September 30, 2021, we had an accumulated deficit of \$81,326,000 and net losses in the amount of \$25,360,000, and \$13,563,000 for the years ended September 30, 2021 and 2020, respectively. We incurred non-cash expenses of \$17,701,000 and \$9,366,000 during the years ended September 30, 2021 and 2020, respectively

On March 15, 2021, we closed private placement for gross proceeds of \$14,209,000 in exchange for issuing Subordinated Convertible Notes and 3,552,250 Warrants in a private placement to accredited investors, pursuant to a series of substantially identical Securities Purchase Agreements, Common Stock Warrants, and related documents. The Convertible Notes will be automatically converted to our Common Stock at \$2.00 per share on the one year anniversary starting on March 15, 2022.

The Convertible Notes had an original principal amount of \$14,209,000 and bear annual interest of 8%. Both the principal amount and the interest are payable on a payment-in-kind basis in shares of our Common Stock.

We believe that our cash on hand will be sufficient to fund our operations through December 31, 2023.

We have financed our corporate operations and our technology development through the issuance of convertible debentures, the issuance of preferred stock, the sale of common stock and the exercise of warrants.

The proceeds of warrants which are not expected to be cashless may generate potential proceeds of up to \$17,683,000.

Operating Activities

Net cash used in operating activities for the years ended September 30, 2021 and 2020 was \$6,851,000 and \$3,914,000, respectively. The net cash used in operating activities for the year ended September 30, 2021 was primarily related to (i) a net loss of \$25,360,000; offset by (ii) working capital changes of \$810,000; and (iii) non-cash expenses of \$13,050,000. The non-cash items include (iii) depreciation and amortization of \$201,000; (iv) issuance for capital stock for services and expenses of \$203,000; (v) stock based compensation- warrants of \$2,547,000; (vi) stock based compensation- stock options of \$1,029,000; (vii) amortization of debt discount as interest expense of \$13,722,000; and offset by (viii) other of \$1,000. On December 15, 2020, we issued a warrant to Ronald P. Erickson for 2,000,000 shares of common stock. The five year warrant is convertible at \$1.53 per share and was valued using a “Black-Scholes” model at \$1,812,000.

The net cash used in operating activities for the year ended September 30, 2020 of \$3,914,000 was primarily related to (i) a net loss of \$13,563,000; offset by (ii) working capital changes of \$283,000; and (iii) non-cash expenses of \$9,366,000. The non-cash items include (iii) depreciation and amortization of \$243,000; (iv) issuance for capital stock for services and expenses of \$1,405,000; (v) stock based compensation- warrants of \$1,702,000; (vi) amortization of debt discount as interest expense of \$5,663,000; (vii) loss on debt settlement of \$825,000; (viii) other of \$5,000 and offset by (ix) gain on debt settlement of \$117,000.

Investing Activities

Net cash used in investing activities for the years ended September 30, 2021 and 2020 was \$300,000 and \$70,000, respectively. There amounts were primarily related to the investment in equipment for research and development.

Financing Activities

Net cash provided by financing activities for the years ended September 30, 2021 and 2020 was \$15,110,000 and \$6,381,000, respectively. The net cash provided by financing activities for the year ended September 30, 2021 was primarily related to (i) issuance of Simple Agreements for future Equity of \$340,000; (ii) \$14,209,000 related to proceeds from convertible notes payable; (iii) proceeds from notes payable- PPP of \$206,000; (iv) proceeds from the issuance of common stock for the exercise of warrants of \$1,313,000; (v) proceeds from the issuance of common stock for the exercise of stock option grants of \$23,000; and offset by (vi) payment of issuance costs from notes payable of \$727,000 and (vii) repayments on Simple Agreements for Future Equity.

[Table of Contents](#)

On March 15, 2021, we closed private placement for gross proceeds of \$14,209,000 in exchange for issuing Subordinated Convertible Notes and 3,552,250 Warrants in a private placement to accredited investors, pursuant to a series of substantially identical Securities Purchase Agreements, Common Stock Warrants, and related documents. The Convertible Notes will be automatically converted to our Common Stock at \$2.00 per share on the one year anniversary starting on March 15, 2022.

The Convertible Notes had an original principal amount of \$14,209,000 and bear annual interest of 8%. Both the principal amount and the interest are payable on a payment-in-kind basis in shares of our Common Stock.

Net cash provided by financing activities for the year ended September 30, 2020 was \$6,381,000. This amount was primarily related to (i) issuance of convertible notes payable of \$5,640,000; (ii) issuance of common stock for warrant exercises of \$8,000; (iii) proceeds from notes payable of \$226,000; (iv) proceeds for Simple Agreements for Future Equity of \$785,000; and proceeds from issuance of shares related to debt settlement of \$125,000; offset by (v) payments of issuance costs from convertible notes payable of \$480,000.

Our contractual cash obligations as of September 30, 2021 are summarized in the table below:

Contractual Cash Obligations (1)	Total	Less Than 1 Year	1-3 Years	3-5 Years	Greater Than 5 Years
Operating leases	\$ 319,152	\$ 131,036	\$ 188,116	\$ -	\$ -
Convertible notes payable	16,464,066	16,464,066	-	-	-
			-	-	-
	<u>\$ 16,783,218</u>	<u>\$ 16,595,102</u>	<u>\$ 188,116</u>	<u>\$ -</u>	<u>\$ -</u>

(1) Convertible notes payable includes \$14,209,000 that automatically converts into common stock at the maturity date during 2022. We expect to incur capital expenditures related to the development of the “Bio-RFID™” and “ChromaID™” technologies. None of the expenditures are contractual obligations as of September 30, 2021.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements (as that term is defined in Item 303 of Regulation S-K) that are reasonably likely to have a current or future material effect on our financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The application of GAAP involves the exercise of varying degrees of judgment. On an ongoing basis, we evaluate our estimates and judgments based on historical experience and various other factors that are believed to be reasonable under the circumstances.

Actual results may differ from these estimates under different assumptions or conditions. We believe that of our significant accounting policies (see summary of significant accounting policies more fully described in Note 2 to the financial statements set forth in this report), the following policies involve a higher degree of judgment and/or complexity:

Fair Value Measurements and Financial Instruments – ASC Topic 820, *Fair Value Measurement and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This topic also establishes a fair value hierarchy, which requires classification based on observable and unobservable inputs when measuring fair value. The fair value hierarchy distinguishes between assumptions based on market data (observable inputs) and an entity’s own assumptions (unobservable inputs).

Derivative Financial Instruments – Pursuant to ASC 815 “Derivatives and Hedging”, we evaluate all of our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. We then determine if embedded derivative must be bifurcated and separately accounted for. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations. For stock-based derivative financial instruments, we use a Black-Scholes-Merton option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument could be required within twelve months of the balance sheet date.

Stock Based Compensation – We have share-based compensation plans under which employees, consultants, suppliers and directors may be granted restricted stock, as well as options and warrants to purchase shares of our common stock at the fair market value at the time of grant. Stock-based compensation cost to employees is measured by us at the grant date, based on the fair value of the award, over the requisite service period under ASC 718. For options issued to employees, we recognize stock compensation costs utilizing the fair value methodology over the related period of benefit.

Convertible Securities – Based upon ASC 815-15, we have adopted a sequencing approach regarding the application of ASC 815-40 to convertible securities. We will evaluate our contracts based upon the earliest issuance date. In the event partial reclassification of contracts subject to ASC 815-40-25 is necessary, due to our inability to demonstrate we have sufficient shares authorized and unissued, shares will be allocated on the basis of issuance date, with the earliest issuance date receiving first allocation of shares. If a reclassification of an instrument were required, it would result in the instrument issued latest being reclassified first.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have no investments in any market risk sensitive instruments either held for trading purposes or entered into for other than trading purposes.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Reference is made to our consolidated financial statements beginning on page F-1 of this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures

We conducted an evaluation, under the supervision and with the participation of our management, of the effectiveness of the design and operation of our disclosure controls and procedures. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (“Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures also include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on this evaluation, our principal executive and principal financial officers concluded as of September 30, 2021 that our disclosure controls and procedures were not effective at the reasonable assurance level due to the material weaknesses in our internal controls over financial reporting discussed immediately below.

Identified Material Weakness

A material weakness in our internal control over financial reporting is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected.

Management identified the following material weakness during its assessment of internal controls over financial reporting:

Personnel: We do not employ a full time Chief Financial Officer. Our Chairman serves as interim Chief Financial Officer. We also utilize a consultant who is a qualified Chief Financial Officer to assist with our financial reporting. This consultant has increased his involvement in the Company.

(b) Management’s Report on Internal Control Over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. Our internal control over financial reporting is a process designed by, or under the supervision of, our CEO and CFO, or persons performing similar functions, and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America (GAAP). Our internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and disposition of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that receipts and expenditures of the Company are being made only in accordance with authorization of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Management assessed the effectiveness of the Company's internal control over financial reporting as of September 30, 2021. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in the 2013 *Internal Control-Integrated Framework*. Based on its evaluation, management has concluded that the Company's internal control over financial reporting was not effective as of September 30, 2021.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate. A control system, no matter how well designed and operated can provide only reasonable, but not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their cost.

c) Changes in Internal Control over Financial Reporting

During the three months ended September 30, 2021, there were no changes in our internal controls over financial reporting during this fiscal quarter that materially affected, or is reasonably likely to have a material effect on our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 9B. OTHER INFORMATION

There were no disclosures of any information required to be filed on Form 8-K during the three months ended September 30, 2021 that were not filed.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The following table sets forth certain information about our current directors and executive officers:

Name	Age	Director/ Executive Officer
Directors-		
Ronald P. Erickson	77	Chairman and Interim Chief Financial Officer (1)
Phillip A. Bosua	47	Chief Executive Officer and Director
Jon Pepper	70	Director (2)
Ichiro Takesako	62	Director
William A. Owens	81	Director (3)

- (1) Chairman of the Nominating and Corporate Governance Committee.
- (2) Chairman of the Audit Committee.
- (3) Chairman of the Compensation Committee.

Directors appoints our executive officers. Each director hold office until their successors are duly appointed or until their earlier resignation or removal. Each officer serves, at the pleasure of the Board of Directors.

Background and Business Experience

Ronald P. Erickson has been a director and officer of Know Labs since April 2003. He was appointed as our CEO and President in November 2009 and as Chairman of the Board in February 2015. Previously, Mr. Erickson was our President and Chief Executive Officer from September 2003 through August 2004 and was Chairman of the Board from August 2004 until May 2011. Mr. Erickson stepped down as Chief Executive Officer on April 10, 2018.

A senior executive with more than 30 years of experience in the high technology, telecommunications, micro-computer, and digital media industries, Mr. Erickson was the founder of Know Labs. He is formerly Chairman, CEO and Co-Founder of Blue Frog Media, a mobile media and entertainment company; Chairman and CEO of eCharge Corporation, an Internet-based transaction procession company, Chairman, CEO and Co-founder of GlobalTel Resources, a provider of telecommunications services; Chairman, Interim President and CEO of Egghead Software, Inc. a software reseller where he was an original investor; Chairman and CEO of NBI, Inc.; and Co-founder of MicroRim, Inc. the database software developer. Earlier, Mr. Erickson practiced law in Seattle and worked in public policy in Washington, DC and New York, NY. Additionally, Mr. Erickson has been an angel investor and board member of a number of public and private technology companies. In addition to his business activities, Mr. Erickson is Chairman of the Board of Trustees of Central Washington University where he received his BA degree. He also holds a MA from the University of Wyoming and a JD from the University of California, Davis. He is licensed to practice law in the State of Washington.

Mr. Erickson is our founder and was appointed as a director because of his extensive experience in developing technology companies.

Phillip A. Bosua was appointed a director and Chief Executive Officer of the Company on April 10, 2018. Previously, Mr. Bosua served as our Chief Product Officer since August 2017 and we entered into a Consulting Agreement on July 7, 2017. From September 2012 to February 2015, he was the founder and Chief Executive Officer of LIFX Inc. (where he developed and marketed an innovative “smart” light bulb) and from August 2015 until February 2016 was Vice President Consumer Products at Soraa (which markets specialty LED light bulbs). From February 2016 to July 2017, Mr. Bosua was the founder and CEO of RAAI, Inc. (where he continued the development of his smart lighting technology). From May 2008 to February 2013 he was the Founder and CEO of LimeMouse Apps, a leading developer of applications for the Apple App Store.

Mr. Bosua was appointed as a director because of his extensive experience in developing technology companies.

Ichiro Takesako has served as a director since December 28, 2012. Mr. Takesako has held executive positions with Sumitomo Precision Products Co., Ltd or Sumitomo since 1983. Mr. Takesako graduated from Waseda University, Tokyo, Japan where he majored in Social Science and graduated with a Degree of Bachelor of Social Science.

In the past few years, Mr. Takesako has held the following executive position in Sumitomo and its affiliates:

June 2008: appointed as General Manager of Sales and Marketing Department of Micro Technology Division
April 2009: appointed as General Manager of Overseas Business Department of Micro Technology Division, in charge of M&A activity of certain business segment and assets of Aviza Technology, Inc.
July 2010: appointed as Executive Director of SPP Process Technology Systems, 100% owned subsidiary of Sumitomo Precision Products then, stationed in Newport, Wales
August 2011: appointed as General Manager, Corporate Strategic Planning Group
January 2013: appointed as Chief Executive Officer of M2M Technologies, Inc., a company invested by Sumitomo Precision products
April 2013: appointed as General Manager of Business Development Department, in parallel of CEO of M2M Technologies, Inc.
April 2014: relieved from General Manager of Business Development Department and is responsible for M2M Technologies Inc. as its CEO
March 2017: Established At Signal, Inc., took over the entire business operation from M2M Technologies, Inc.
April 2017: appointed as Chief Executive Officer of At Signal Inc., a company invested by himself.

Mr. Takesako was appointed as a Director based on his previous position with Sumitomo and Sumitomo’s previous significant partnership with the Company.

Jon Pepper has served as an independent director since April 2006. Mr. Pepper founded Pepcom in 1980, a company that become the industry leader at producing press-only technology showcase events around the country and internationally. He sold his stake in the corporation and retired as a partner at the end of 2018. Prior to that, Mr. Pepper started the DigitalFocus newsletter, a ground-breaking newsletter on digital imaging that was distributed to leading influencers worldwide. Mr. Pepper has been closely involved with the high technology revolution since the beginning of the personal computer era. He was formerly a well-regarded journalist and columnist; his work on technology subjects appeared in *The New York Times*, *Fortune*, *PC Magazine*, *Men’s Journal*, *Working Woman*, *PC Week*, *Popular Science* and many other well-known publications. Pepper was educated at Union College in Schenectady, New York and the Royal Academy of Fine Arts in Copenhagen. He continues to be active in non-profit work and boards, and in 2017 founded Mulberry Tree Films, a non-profit that supports independent high-quality documentary films. The company funded and produced the acclaimed documentary, “The Gates of Shinto” and is looking into additional projects.

Mr. Pepper was appointed as a director because of his marketing skills with technology companies.

William A. Owens has served as an independent director since May 24, 2018. Admiral William A. Owens is currently the co-founder and executive chairman of Red Bison Advisory Group, a company which identifies opportunities with proven enterprises in China, the Middle East, and the United States and creates dynamic partnerships focusing on natural resources (oil, gas and fertilizer plants), real estate, and information and communication technology. Most recently, he was the chairman of the board of CenturyLink Telecom, the third largest telecommunications company in the United States and was on the advisory board of SAP USA. Owens serves on the board of directors at Wipro Technologies and Know Labs Inc. Owens is on the advisory board of the following private companies: Carillon Technologies, Platform Science, Prism, Sarcos, Sierra Nevada Corporation and Vodi. Owens is on the board of trustees at EastWest Institute, Seattle University, and an advisor to the Post COVID-19 Debt Initiative (PCDI). He is also a member of the Council of Foreign Relations.

From 2007 to 2015, Owens was the Chairman and Senior Partner of AEA Investors Asia, a private equity firm located in Hong Kong, and Vice Chairman of the NYSE for Asia. Owens also served as the Chairman of Eastern Airlines. He has served on over 20 public boards including Daimler, British American Tobacco, Telstra, Nortel Networks, and Polycom. Owens was the CEO/Chairman of Teledesic LLC, a Bill Gates/Craig McCaw company bringing worldwide broadband through an extensive satellite network and prior, was the President, COO/Vice Chairman of Science Applications International Corporation (SAIC). Owens has also served on the boards of the non-for-profit organizations; Fred Hutchinson Cancer Research Center, Carnegie Corporation of New York, Brookings Institution, and RAND Corporation.

Owens is a four-star US Navy veteran. He was Vice Chairman of the Joint Chiefs of Staff, the second-ranking United States military officer with responsibility for reorganizing and restructuring the armed forces in the post- Cold War era. He is widely recognized for bringing commercial high-grade technology into the Department of Defense for military applications. Owens was the architect of the Revolution in Military Affairs (RMA), an advanced systems technology approach to military operations, the most significant change in the system of requirements, budgets and technology for the four-armed forces since World War II. Owens, served as Commander of the U.S. Sixth Fleet from 1990 to 1992, which included Operation Desert Storm. Owens also served as the deputy chief of Naval Operations for Resources. Owens was senior military assistant to two Secretaries of Defense (Cheney and Carlucci) and served in the Office of Program Appraisal for the Secretary of the Navy. He began his military career as a nuclear submariner. He served on four strategic nuclear-powered submarines and three nuclear attack submarines, including tours as Commanding Officer aboard the USS Sam Houston, Michigan, and USS City of Corpus Christi. Owens spent a total of 2000 days submerged aboard submarines, including duty in Vietnam.

Owens is a 1962 honor graduate of the United States Naval Academy with a bachelor's degree in mathematics, bachelor's and master's degrees in politics, philosophy and economics from Oxford University, and a master's degree in management from George Washington University. He has written more than fifty articles on national security and authored the book "High Seas." His book, "Lifting the Fog of War," was published in April 2000 with a revision published in Mandarin in 2009.

Owens has received numerous recognitions and awards: the "Légion d'Honneur" by France, and the highest awards given to foreigners by the countries of Indonesia and Sweden. He was named as one of The 50 Most Powerful People in Networking by Network World, one of the one hundred Best Board Members in the United States for 2011 and again in 2016 awarded by NACD, awarded the David Sarnoff Award for Technology Innovation and the Intrepid Salute Award in recognition of his business achievements and support of important philanthropic activities. Owens is active in philanthropy to foster Chinese – American relations including dialogues between the most senior retired officers in the United States and Chinese militaries and similar dialogues between very senior economists. He is one of North Dakota's Roughriders recipients, the award given annually to some of the most prominent North Dakotans.

Family Relationships

There are no family relationships among our directors and executive officers.

Involvement in Certain Legal Proceedings

None of our directors or executive officers has, during the past ten years:

- Had any petition under the federal bankruptcy laws or any state insolvency law filed by or against, or had a receiver, fiscal agent, or similar officer appointed by a court for the business or property of such person, or any partnership in which he was a general partner at or within two years before the time of such filing, or any corporation or business association of which he was an executive officer at or within two years before the time of such filing;
- Been convicted in a criminal proceeding or a named subject of a pending criminal proceeding (excluding traffic violations and other minor offenses);
- Been the subject of any order, judgment, or decree, not subsequently reversed, suspended, or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining him from, or otherwise limiting, the following activities:
 - Acting as a futures commission merchant, introducing broker, commodity trading advisor, commodity pool operator, floor broker, leverage transaction merchant, any other person regulated by the Commodity Futures Trading Commission, or an associated person of any of the foregoing, or as an investment adviser, underwriter, broker or dealer in securities, or as an affiliated person, director or employee of any investment company, bank, savings and loan association or insurance company, or engaging in or continuing any conduct or practice in connection with such activity;
 - Engaging in any type of business practice; or
 - Engaging in any activity in connection with the purchase or sale of any security or commodity or in connection with any violation of federal or state securities laws or federal commodities laws;

Table of Contents

- Been the subject of any order, judgment, or decree, not subsequently reversed, suspended, or vacated, of any federal or state authority barring, suspending, or otherwise limiting for more than 60 days the right of such person to engage in any activity described in (i) above, or to be associated with persons engaged in any such activity;
- Been found by a court of competent jurisdiction in a civil action or by the SEC to have violated any federal or state securities law, where the judgment in such civil action or finding by the SEC has not been subsequently reversed, suspended, or vacated; or
- Been found by a court of competent jurisdiction in a civil action or by the Commodity Futures Trading Commission to have violated any federal commodities law, where the judgment in such civil action or finding by the Commodity Futures Trading Commission has not been subsequently reversed, suspended, or vacated.

Board Committees

The Board has three standing committees to facilitate and assist the Board in the execution of its responsibilities. The committees are currently the Audit Committee, the Nominating and Corporate Governance Committee, and the Compensation Committee. The Committees were formed in July 2010. The Audit and Compensation Committees are comprised solely of non-employee, independent directors. The Nominating and Corporate Governance Committee has two management directors, Ronald P. Erickson as Chairman and Phillip A. Bosua as a member. Charters for each committee are available on our website at www.knowlabs.co. The discussion below describes current membership for each of the standing Board committees.

Compensation Committee Interlocks and Insider Participation

Audit	Compensation	Nominations and Corporate Governance
Jon Pepper (Chairman)	William A. Owens (Chairman)	Ron Erickson (Chairman)
William A. Owens	Jon Pepper	Phillip A. Bosua
Ichiro Takesako	Ichiro Takesako	William A. Owens Jon Pepper

No member of the Compensation Committee during the fiscal year ended September 30, 2021 served as an officer, former officer, or employee of the Company or participated in a related party transaction that would be required to be disclosed in this prospectus. Further, during this period, no executive officer of the Company served as:

- a member of the Compensation Committee or equivalent of any other entity, one of whose executive officers served as one of our directors or was an immediate family member of a director, or served on our Compensation Committee; or
- a director of any other entity, one of whose executive officers or their immediate family member served on our Compensation Committee.

Code of Ethics

We have adopted conduct and ethics standards titled the code of ethics, which is available at www.knowlabs.co. These standards were adopted by our Board of Directors to promote transparency and integrity. The standards apply to our Board of Directors, executives and employees. Waivers of the requirements of our code of ethics or associated policies with respect to members of our Board of Directors or executive officers are subject to approval of the full board.

ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program

This Compensation Discussion and Analysis describes the material elements of compensation awarded to, earned by or paid to each of our executive officers named in the Compensation Table under "Remuneration of Executive Officers" (the "Named Executive Officers") who served during the year ended September 30, 2021. This compensation discussion primarily focuses on the information contained in the following tables and related footnotes and narrative for the last completed fiscal year. We also describe compensation actions taken after the last completed fiscal year to the extent that it enhances the understanding of our executive compensation disclosure. The principles and guidelines discussed herein would also apply to any additional executive officers that the Company may hire in the future.

The Compensation Committee of the Board has responsibility for overseeing, reviewing and approving executive compensation and benefit programs in accordance with the Compensation Committee's charter. Starting 2020, the Committee has obtained advice from third parties regarding peer group compensation and other attributes of executive compensation. The members of the Compensation Committee are William A. Owens, Jon Pepper and Ichiro Takesako.

Compensation Philosophy and Objectives

The major compensation objectives for the Company's executive officers are as follows:

- to attract and retain highly qualified individuals capable of making significant contributions to our long-term success;
- to motivate and reward named executive officers whose knowledge, skills, and performance are critical to our success;
- to closely align the interests of our named executive officers and other key employees with those of its shareholders; and
- to utilize incentive based compensation to reinforce performance objectives and reward superior performance.

Role of Chief Executive Officer in Compensation Decisions

The Board approves all compensation for the chief executive officer. The Compensation Committee makes recommendations on the compensation for the chief executive officer and approves all compensation decisions, including equity awards, for our executive officers. Our chief executive officer makes recommendations regarding the base salary and non-equity compensation of other executive officers that are approved by the Compensation Committee in its discretion.

Setting Executive Compensation

The Compensation Committee believes that compensation for the Company's executive officers must be managed to what we can afford and in a way that allows for us to meet our goals for overall performance. During the years ended September 30, 2021 and 2020, the Compensation Committee and the Board compensated Ronald P. Erickson, its Chairman of the Board and Interim Financial Officer, with an annual salary of \$195,000 from October 1, 2019 to May 1, 2020. From May 1, 2020 to March 31, 2021, the annual compensation was \$215,000. From April 1, 2021 to September 30, 2021, the annual compensation was \$300,000. The Compensation Committee and the Board of Particle Inc. compensated Ronald P. Erickson with an annual salary of \$120,000 from June 1, 2020 to August 15, 2021.

During the years ended September 30, 2021 and 2020, the Compensation Committee and the Board compensated Phillip A. Bosua, its Chief Executive Officer, with an annual salary of \$240,000 from October 1, 2019 to May 1, 2020. May 1, 2020 to March 31, 2021, the annual compensation was \$260,000. From April 1, 2021 to September 30, 2021, the annual compensation was \$350,000.

The Compensation Committee and the Board of Particle, Inc. compensated Phillip A. Bosua with an annual salary of \$120,000 from June 1, 2020 to August 15, 2021.

This compensation reflected the financial condition of the Company. Other Named Executive Officers were paid by us during 2021 and 2020. The Compensation Committee starting using a peer group of publicly-traded and privately-held companies in structuring the compensation packages starting late 2020.

Executive Compensation Components for the Year Ended September 30, 2021

The Compensation Committee did not use a formula for allocating compensation among the elements of total compensation during the year that ended on September 30, 2021. The Compensation Committee believes that in order to attract and retain highly effective people it must maintain a flexible compensation structure. For the year that ended September 30, 2021, the principal components of compensation for named executive officers was base salary and stock and other equity awards.

Base Salary

Base salary is intended to ensure that our employees are fairly and equitably compensated. Generally, base salary is used to appropriately recognize and reward the experience and skills that employees bring to the Company and provides motivation for career development and enhancement. Base salary ensures that all employees continue to receive a basic level of compensation that reflects any acquired skills which are competently demonstrated and are consistently used at work.

Base salaries for the Company's named executive officers are initially established based on their prior experience, the scope of their responsibilities and the applicable competitive market compensation paid by other companies for similar positions. Mr. Erickson

Performance-Based Incentive Compensation

The Compensation Committee believes incentive compensation reinforces performance objectives, rewards superior performance and is consistent with the enhancement of stockholder value. All of the Company's Named Executive Officers are eligible to receive performance-based incentive compensation. The Compensation Committee did not recommend or approve payment of any performance-based incentive compensation to the Named Executive Officers during the year ended September 30, 2021 based on our financial condition.

Ownership Guidelines

The Compensation Committee does not require our executive officers to hold a minimum number of our shares. However, to directly align the interests of executive officers with the interests of the stockholders, the Compensation Committee encourages each executive officer to maintain an ownership interest in the Company.

Stock Option Program

Stock options are an integral part of our executive compensation program. They are intended to encourage ownership and retention of the Company's common stock by named executive officers and employees, as well as non-employee members of the Board. Through stock options, the objective of aligning employees' long-term interest with those of stockholders may be met by providing employees with the opportunity to build a meaningful stake in the Company.

The Stock Option Program assists us by:

- enhancing the link between the creation of stockholder value and long-term executive incentive compensation;
- providing an opportunity for increased equity ownership by executive officers; and
- maintaining competitive levels of total compensation.

Stock option award levels are determined by the Compensation Committee and vary among participants' positions within the Company. Newly hired executive officers or promoted executive officers are generally awarded stock options, at the discretion of the Compensation Committee, at the next regularly scheduled Compensation Committee meeting on or following their hire or promotion date. In addition, such executives are eligible to receive additional stock options on a discretionary basis after performance criteria are achieved.

Options are awarded at the closing price of our common stock on the date of the grant or last trading day prior to the date of the grant. The Compensation Committee's policy is not to grant options with an exercise price that is less than the closing price of our common stock on the grant date.

Generally, the majority of the options granted by the Compensation Committee vest quarterly over four year term. Vesting and exercise rights cease upon termination of employment and/or service, except in the case of death (subject to a one year limitation), disability or retirement. Stock options vest immediately upon termination of employment without cause or an involuntary termination following a change of control. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to such option, including voting rights and the right to receive dividends or dividend equivalents. During the years ended September 30, 2021 and 2020, the Company issued stock option grants which vest when earned based on certain performance criteria. No stock compensation expense has been recorded for those options with performance milestones.

The Named Executive Officers received stock grants and option awards during the year ended September 30, 2021, as disclosed under the header Executive Compensation below.

Retirement and Other Benefits

We have no other retirement, savings, long-term stock award or other type of plans for the Named Executive Officers.

Perquisites and Other Personal Benefits

During the year ended September 30, 2021, we provided the Named Executive Officers with medical insurance. No other personal benefits were provided to these individuals. The committee expects to review the levels of perquisites and other personal benefits provided to Named Executive Officers annually.

Employment Agreement with Phillip A. Bosua, Chief Executive Officer

Phillip A. Bosua was appointed our Chief Executive Officer on April 10, 2018. Previously, Mr. Bosua served as the Company's Chief Product Officer since August 2017. The Company entered into a Consulting Agreement with Mr. Bosua's company, Blaze Clinical on July 7, 2017. From September 2012 to February 2015, Mr. Bosua was the founder and Chief Executive Officer of LIFX Inc. (where he developed and marketed an innovative "smart" light bulb) and from August 2015 until February 2016 was Vice President Consumer Products at Soraa (which markets specialty LED light bulbs). From February 2016 to July 2017, Mr. Bosua was the founder and CEO of RAAI, Inc. (where he continued the development of his smart lighting technology). From May 2008 to February 2013 he was the Founder and CEO of LimeMouse Apps, a leading developer of applications for the Apple App Store.

On April 10, 2018, we entered into an Employment Agreement with Mr. Bosua reflecting his appointment as Chief Executive Officer. The Employment Agreement is for an initial term of 12 months (subject to earlier termination) and will be automatically extended for additional 12-month terms unless either party notifies the other party of its intention to terminate the Employment Agreement with at least ninety (90) days prior to the end of the Initial Term or renewal term. Mr. Bosua was paid a base salary of \$225,000 per year, received 500,000 shares of common stock valued at \$0.33 per share and may be entitled to bonuses and equity awards at the discretion of the Board or a committee of the Board. The Employment Agreement provides for severance pay equal to 12 months of base salary if Mr. Bosua is terminated without “cause” or voluntarily terminates his employment for “good reason.” During the years ended September 30, 2021 and 2020, the Compensation Committee and the Board compensated Phillip A. Bosua, its Chief Executive Officer, with an annual salary of \$240,000 from October 1, 2019 to May 1, 2020. May 1, 2020 to March 31, 2021, the annual compensation was \$260,000. From April 1, 2021 to September 30, 2021, the annual compensation was \$350,000. The Compensation Committee and the Board of Particle, Inc. compensated Phillip A. Bosua with an annual salary of \$120,000 from June 1, 2020 to August 15, 2021.

Mr. Bosua will be entitled to participate in all group employment benefits that are offered by us to our senior executives and management employees from time to time, subject to the terms and conditions of such benefit plans, including any eligibility requirements.

If the Company terminates Mr. Bosua’s employment at any time prior to the expiration of the Term without Cause, as defined in the Employment Agreement, or if Mr. Bosua terminates his employment at any time for “Good Reason” or due to a “Disability,” Mr. Bosua will be entitled to receive (i) his Base Salary amount for one year; and (ii) medical benefits for eighteen months.

Employment Agreement with Ronald P. Erickson, Chairman of the Board and Interim Chief Financial Officer

On April 10, 2018, we entered into an Amended Employment Agreement for Ronald P. Erickson which amends the Employment Agreement dated July 1, 2017. The Agreement expires March 21, 2019. automatically be extended for additional one (1) year periods unless either Party delivers written notice of such Party’s intention to terminate this Agreement at least ninety (90) days prior to the end of the Initial Term or renewal term.

During the years ended September 30, 2021 and 2020, the Compensation Committee and the Board compensated Ronald P. Erickson, its Chairman of the Board and Interim Financial Officer, with an annual salary of \$195,000 from October 1, 2019 to May 1, 2020. From May 1, 2020 to March 31, 2021, the annual compensation was \$215,000. From April 1, 2021 to September 30, 2021, the annual compensation was \$300,000. The Compensation Committee and the Board of Particle Inc. compensated Ronald P. Erickson with an annual salary of \$120,000 from June 1, 2020 to August 15, 2021.

Mr. Erickson will be entitled to participate in all group employment benefits that are offered by us to our senior executives and management employees from time to time, subject to the terms and conditions of such benefit plans, including any eligibility requirements.

If the Company terminates Mr. Erickson’s employment at any time prior to the expiration of the Term without Cause, as defined in the Employment Agreement, or if Mr. Erickson terminates his employment at any time for “Good Reason” or due to a “Disability,” Mr. Erickson will be entitled to receive (i) his Base Salary amount for one year; and (ii) medical benefits for eighteen months.

Tax and Accounting Implications

Deductibility of Executive Compensation

Subject to certain exceptions, Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Code”) generally denies a deduction to any publicly held corporation for compensation paid to its chief executive officer and its three other highest paid executive officers (other than the principal financial officer) to the extent that any such individual’s compensation exceeds \$1 million. “Performance-based compensation” (as defined for purposes of Section 162(m)) is not taken into account for purposes of calculating the \$1 million compensation limit, provided certain disclosure, shareholder approval and other requirements are met. We periodically review the potential consequences of Section 162(m) and may structure the performance-based portion of our executive compensation to comply with certain exceptions to Section 162(m). However, we may authorize compensation payments that do not comply with the exceptions to Section 162(m) when we believe that such payments are appropriate and in the best interests of the stockholders, after taking into consideration changing business conditions or the officer’s performance.

Accounting for Stock-Based Compensation

Accounting for stock-based payments including its Stock Option Program is done in accordance with the requirements of ASC 718, "Compensation-Stock Compensation."

COMPENSATION COMMITTEE REPORT

The Compensation Committee, composed entirely of independent directors in accordance with the applicable laws and regulations, sets and administers policies that govern the Company's executive compensation programs, and incentive and stock programs. The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

THE COMPENSATION COMMITTEE

William A. Owens, Chairman

EXECUTIVE COMPENSATION**REMUNERATION OF EXECUTIVE OFFICERS**

The following table provides information concerning remuneration of the chief executive officer, the chief financial officer and another named executive officer for the fiscal years ended September 30, 2021 and 2020:

Summary Compensation Table

Name	Principal Position		Salary (\$)	Bonus (\$)	Stock Awards (\$) (3)	Option Awards (\$)	All Other Compensation (\$)	Total (\$)
Salary- Ronald P. Erickson (1)	Chairman of the Board and Interim Chief Financial Officer	9/30/2021	\$ 366,042	\$ -	\$ -	\$ 1,811,691	\$ -	\$ 2,177,733
		9/30/2020	\$ 243,333	\$ -	\$ 190,000	\$ 394,000	\$ -	\$ 827,333
Phillip A. Bosua (2)	Chief Executive Officer	9/30/2021	\$ 413,760	\$ 250,000	\$ -	\$ -	\$ -	\$ 663,760
		9/30/2020	\$ 288,333	\$ -	\$ 285,000	\$ 394,000	\$ -	\$ 967,333

(1) During the years ended September 30, 2021 and 2020, the Compensation Committee and the Board compensated Ronald P. Erickson, its Chairman of the Board and Interim Financial Officer, with an annual salary of \$195,000 from October 1, 2019 to May 1, 2020. From May 1, 2020 to March 31, 2021, the annual compensation was \$215,000. From April 1, 2021 to September 30, 2021, the annual compensation was \$300,000. The Compensation Committee and the Board of Particle Inc. compensated Ronald P. Erickson with an annual salary of \$120,000 from June 1, 2020 to August 15, 2021. On December 15, 2020, we issued a fully vested warrant to Ronald P. Erickson for 2,000,000 shares of common stock. The five year warrant is exercisable for cash or non-cash at \$1.53 per share and was valued using a Black-Scholes model at \$1,811,691. The 100,000 shares of restricted common stock issued on January 1, 2020 to Mr. Erickson were valued at the grant date market value of \$1.90 per share. The stock grant was authorized at \$0.17 per share. During the year end September 30, 2020, Mr. Erickson received a vested stock option grant from Particle for 500,000 Particle shares valued at \$0.788 per share or \$394,000.

(2) During the years ended September 30, 2021 and 2020, the Compensation Committee and the Board compensated Phillip A. Bosua, its Chief Executive Officer, with an annual salary of \$240,000 from October 1, 2019 to May 1, 2020. May 1, 2020 to March 31, 2021, the annual compensation was \$260,000. From April 1, 2021 to September 30, 2021, the annual compensation was \$350,000. The Compensation Committee and the Board of Particle, Inc. compensated Phillip A. Bosua with an annual salary of \$120,000 from June 1, 2020 to August 15, 2021. On March 18, 2021, we approved a \$250,000 bonus for Mr. Bosua. The bonus was paid during April 2021. The 150,000 shares of restricted common stock issued on January 1, 2020 to Mr. Bosua were valued at the grant date market value of \$1.90 per share. Mr. Bosua received a vested stock option grant from Particle for 500,000 Particle shares valued at \$0.788 per share or \$394,000.

(3) These amounts reflect the grant date market value as required by Regulation S-K Item 402(n)(2), computed in accordance with FASB ASC Topic 718.

Grants of Stock Based Awards in Fiscal Year Then Ended September 30, 2021

The Compensation Committee approved the following performance-based incentive compensation to the Named Executive Officers during the year ended September 30, 2021.

Name	Grant Date	Estimated Future Payouts Under Non-Equity Incentive Plan Awards			Estimated Future Payouts Under Equity Incentive Plan Awards			All Other Stock Awards; Number of Shares of Stock or Units (#)	All Other Option Awards; Number of Securities Underlying Options (#)	Exercise or Base Price of Option Awards (\$/Sh) (3)	Grant Date Fair Value of Stock and Option Awards
		Threshold (\$)	Target (\$)	Maximum (\$)	Threshold (#)	Target (#)	Maximum (#)				
Ronald P. Erickson (1)	7/2/2020	\$ -	\$ -	\$ -	-	-	-	-	1,200,000	\$ 1.100	\$ -
	12/15/2020	\$ -	\$ -	\$ -	-	-	-	-	1,865,675	\$ 1.530	\$ -
	12/15/2020	\$ -	\$ -	\$ -	-	-	-	-	1,865,675	\$ 1.530	\$ -
	12/15/2020	\$ -	\$ -	\$ -	-	-	-	-	2,000,000	\$ 1.530	\$ 0.906
Phillip A. Bosua (2)	7/30/2018	\$ -	\$ -	\$ -	-	-	-	-	1,000,000	\$ 1.280	\$ 1.28
	11/4/2019	\$ -	\$ -	\$ -	-	-	-	-	1,200,000	\$ 1.100	\$ -
	12/15/2020	\$ -	\$ -	\$ -	-	-	-	-	2,132,195	\$ 1.530	\$ -
	12/15/2020	\$ -	\$ -	\$ -	-	-	-	-	2,132,200	\$ 1.530	\$ -

(1) On November 4, 2019, we granted a stock option grant to Ronald P. Erickson for 1,200,000 shares with an exercise price of \$1.10 per share. The performance grant expires November 4, 2024 and vests upon uplisting to the NASDAQ or NYSE exchanges. On July 2, 2020, Particle approved stock option grants for 1,500,000 shares at \$0.10 per share to Ronald P. Erickson. The stock option grants vest (i) 33.3% upon issuance; (ii) 33.3% after the first sale; and (iii) 33.4% after one million in sales are achieved. Mr. Erickson received a vested stock option grant from Particle for 500,000 Particle shares valued at \$0.788 per share or \$394,000. The remaining 1,000,000 Particle options are milestone based and expense will be recognized when the milestone is met or likely to be met. The Particle stock option grant was forfeited as of September 30, 2021. On December 15, 2020, we issued two stock option grants to Ronald P. Erickson, one for 1,865,675 shares and one for 1,865,675 shares at an exercise price of \$1.53 per share. The stock option grants expire in five years. The stock option grants vest when earned based on certain performance criteria. On December 15, 2020, we issued a fully vested warrant to Ronald P. Erickson for 2,000,000 shares of common stock. The five year warrant is exercisable for cash or non-cash at \$1.53 per share and was valued using a Black-Scholes model at \$1,811,691.

(2) On November 4, 2019, we granted a stock option grant to Philip A. Bosua for 1,200,000 shares with an exercise price of \$1.10 per share. The performance grant expires November 4, 2024 and vests upon FDA approval of the UBAND blood glucose monitor. On July 2, 2020, Particle approved stock option grants for 1,500,000 shares at \$0.10 per share to Phillip A. Bosua. The stock option grants vest (i) 33.3% upon issuance; (ii) 33.3% after the first sale; and (iii) 33.4% after one million in sales are achieved. Mr. Bosua received a vested stock option grant from Particle for 500,000 Particle shares valued at \$0.788 per share or \$394,000. The remaining 1,000,000 Particle options are milestone based and expense will be recognized when the milestone is met or likely to be met. The Particle stock option grant was forfeited as of September 30, 2021. On December 15, 2020, we issued two stock option grants to Phillip A. Bosua, one for 2,132,195 shares and one for 2,132,200 shares at an exercise price of \$1.53 per share. The stock option grants expire in five years. The stock option grants vest when earned based on certain performance criteria.

(3) These amounts reflect the grant date market value as required by Regulation S-K Item 402(n)(2), computed in accordance with FASB ASC Topic 718.

Outstanding Equity Awards as of Fiscal Year Then Ended September 30, 2021 and 2020

Our Named Executive Officers have the following outstanding equity awards as of September 30, 2021 and 2020.

Name	Option Awards			
	Number of Securities Underlying Unexercised Options Exercisable (#)	Number of Securities Underlying Unexercised Options Unexercisable (#)	Option Exercise Price (\$ (3))	Option Expiration Date
Ronald P. Erickson (1)	-	1,200,000	\$ 1.10	11/4/2024
	-	1,865,675	\$ 1.53	12/15/2025
	-	1,865,675	\$ 1.53	12/15/2025
	2,000,000	-	\$ 1.530	12/15/2025
Phillip A. Bosua (2)	1,000,000	-	\$ 1.280	7/30/2023
	-	1,200,000	\$ 1.100	11/4/2024

The five year warrant is exercisable for cash or non-cash at \$1.53 per share and was valued using a Black-Scholes model at \$1,811,691.

(2) On July 30, 2018, Mr. Bosua was awarded a stock option grant for 1,000,000 shares of our common stock that was awarded at \$1.28 per share. The stock option grant vests quarterly over four years. On November 4, 2019, we granted a stock option grant to Phillip A. Bosua for 1,200,000 shares with an exercise price of \$1.10 per share. The performance grant expires November 4, 2024 and vests upon FDA approval of the UBAND blood glucose monitor. On July 2, 2020, Particle approved stock option grants for 1,500,000 shares at \$0.10 per share to Phillip A. Bosua. The stock option grants vest (i) 33.3% upon issuance; (ii) 33.3% after the first sale; and (iii) 33.4% after one million in sales are achieved. Mr. Bosua received a vested stock option grant from Particle for 500,000 Particle shares valued at \$0.788 per share or \$394,000. The remaining 1,000,000 Particle options are milestone based and expense will be recognized when the milestone is met or likely to be met. The Particle stock option grant was forfeited as of September 30, 2021. On December 15, 2020, we issued two stock option grants to Phillip A. Bosua, one for 2,132,195 shares and one for 2,132,200 shares at an exercise price of \$1.53 per share. The stock option grants expire in five years. The stock option grants vest when earned based on certain performance criteria.

(3) These amounts reflect the grant date market value as required by Regulation S-K Item 402(n)(2), computed in accordance with FASB ASC Topic 718.

Option Exercises and Stock Vested

Our Named Executive Officers did not have any option exercises during the year ended September 30, 2021 and 2020.

Pension Benefits

We do not provide any pension benefits.

Nonqualified Deferred Compensation

We do not have a nonqualified deferral program.

Employment Agreements

We have an employment agreement with each of Ronald P. Erickson and Phillip A. Bosua, which are summarized in tabular format below.

Potential Payments upon Termination or Change in Control

We have the following potential payments upon termination or change in control with Ronald P. Erickson:

Executive Payments Upon Separation	For Cause Termination on 9/30/2021	Early or Normal Retirement on 9/30/2021	Not For Good Cause Termination on 9/30/2021	Change in Control Termination on 9/30/2021	Disability or Death on 9/30/2021
Compensation:					
Base salary (1)	\$ -	\$ -	\$ 300,000	\$ 300,000	\$ -
Performance-based incentive compensation	\$ -	\$ -	\$ -	\$ -	\$ -
Stock options (2)	\$ -	\$ -	\$ 7,028,966	\$ 7,028,966	\$ -

Benefits and Perquisites:					
Health and welfare benefits (3)	\$ -	\$ -	\$ 25,956	\$ 25,956	\$ -
Accrued vacation pay	\$ -	\$ -	\$ -	\$ -	\$ -
Total	\$ -	\$ -	\$ 9,500,481	\$ 9,500,481	\$ -

- (1) Reflects a salary for twelve months.
- (2) Reflects the vesting of stock option grants.
- (3) Reflects the cost of medical benefits for eighteen months.

We do not have any potential payments upon termination or change in control with our other Named Executive Officers.

DIRECTOR COMPENSATION

We primarily use stock options grants to incentive compensation to attract and retain qualified candidates to serve on the Board. This compensation reflected the financial condition of the Company. In setting director compensation, we consider the significant amount of time that Directors expend in fulfilling their duties to the Company as well as the skill-level required by our members of the Board. During the year ended September 30, 2021, Ronald P. Erickson and Phillip A. Bosua did not receive any compensation for his service as a director. The compensation disclosed in the Summary Compensation Table on page 38 represents the total compensation for Mr. Erickson and Mr. Bosua.

Compensation Paid to Board Members

Our independent non-employee directors are not compensated in cash. The only compensation generally has been in the form of stock awards. There is no formal stock compensation plan for independent non-employee directors. Our non-employee directors received the following compensation during the year ended September 30, 2021.

Name	Stock Awards	Option Awards (4)	Other Compensation	Total
Jon Pepper (1)	\$ 60,000	\$ 31,392	\$ -	\$ 91,392
Ichiro Takesako (2)	60,000	31,392	-	91,392
William A. Owens (3)	60,000	31,392	-	91,392
Total	\$ 180,000	\$ 94,176	\$ -	\$ 274,176

(1) The stock award for 30,000 shares was issued on January 15, 2021 to Jon Pepper and was valued at \$2.00 per share. The stock option grant for 20,000 shares of common stock was issued on January 15, 2021 to Mr. Pepper and was valued at the black scholes value of \$1.570 per share.

(2) The stock award for 30,000 shares was issued on January 15, 2021 to Ichiro Takesako and was valued at \$2.00 per share. The stock option grant for 20,000 shares of common stock was issued on January 15, 2021 to Mr. Takesako and was valued at the black scholes value of \$1.570 per share.

(3) The stock award for 30,000 shares was issued on January 15, 2021 to William A. Owens and was valued at \$2.00 per share. The stock option grant for 20,000 shares of common stock was issued on January 15, 2021 to Mr. Owens and was valued at the black scholes value of \$1.570 per share.

(4) These amounts reflect the grant date market value as required by Regulation S-K Item 402(n)(2), computed in accordance with FASB ASC Topic 718.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth certain information regarding the ownership of our common stock as of September 30, 2021 by:

- each director and nominee for director;
- each person known by us to own beneficially 5% or more of our common stock;
- each executive officer named in the summary compensation table elsewhere in this report; and
- all of our current directors and executive officers as a group.

The amounts and percentages of common stock beneficially owned are reported on the basis of regulations of the SEC governing the determination of beneficial ownership of securities. Under the rules of the SEC, a person is deemed to be a “beneficial owner” of a security if that person has or shares voting power,” which includes the power to vote or to direct the voting of such security, or has or shares “investment power,” which includes the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which that person has the right to acquire beneficial ownership within 60 days. Under these rules more than one person may be deemed a beneficial owner of the same securities and a person may be deemed to be a beneficial owner of securities as to which such person has no economic interest.

Unless otherwise indicated below, each beneficial owner named in the table has sole voting and sole investment power with respect to all shares beneficially owned, subject to community property laws where applicable. The address for each person shown in the table is c/o Know Labs, Inc. 500 Union Street, Suite 810, Seattle Washington, unless otherwise indicated.

	Shares Beneficially Owned	
	Amount	Percentage
Directors and Officers-		
Ronald P. Erickson (1)	10,093,365	23.0%
Phillip A. Bosua (2)	3,817,500	10.6%
Jon Pepper (3)	455,500	1.3%
Ichiro Takesako (4)	172,500	0.5%
William A. Owens (5)	833,750	2.4%
Total Directors and Officers (5 in total)	15,372,615	43.7%

* Less than 1%.

(1) Reflects 1,462,435 shares of shares of common stock beneficially owned by Ronald P. Erickson or entities controlled by Mr. Erickson and warrants to purchase 3,894,666 shares of our common stock that are exercisable within 60 day and 4,736,264 shares of our common stock related to convertible debt that are exercisable within 60 days.

[Table of Contents](#)

(2) Reflects 3,005,000 shares of shares of common stock beneficially owned by Phillip A. Bosua and vested stock option grants to purchase 812,500 shares of our common stock that are exercisable within 60 days.

(3) Reflects 358,000 shares beneficially owned by Jon Pepper, vested stock option grant to purchase 52,500 shares of our common stock and 45,000 warrants to purchase shares of our common stock that are exercisable within 60 days.

(4) Reflects 100,000 shares beneficially owned by Ichiro Takesako, vested stock option grant to purchase 52,500 shares of our common stock and 20,000 warrants to purchase shares of our common stock that are exercisable within 60 days.

(5) Reflects 582,500 shares of common stock beneficially owned by William A Owens and warrants to purchase 251,250 shares of our common stock that are exercisable within 60 days.

	Shares Beneficially Owned	
	Amount	Percentage
Greater Than 5% Ownership		
Clayton A. Struve (1)	19,511,071	36.2%
	Blocker at 4.99%	
Ronald P. Erickson (2)	10,093,365	23.0%
Phillip A. Bosua (3)	3,817,500	10.6%
Dale Broadrick (4)	1,825,508	5.1%

(1) Reflects 849,000 shares beneficially owned by Clayton A. Struve. This total also includes 6,269,715 warrants to purchase shares of our common stock, 8,108,356 shares related to the conversion of preferred stock into our common stock and 4,284,000 shares related to the conversion of debt into our common stock. The 5,769,715 of warrants and all of the preferred stock and convertible debt are currently priced at \$0.25 per share, subject to adjustment. Warrants of 500,000 shares related to the offering are currently priced at \$1.20 per share, subject to adjustment. Mr. Struve is subject to a 4.99% blocker. The address of Mr. Struve is 175 West Jackson Blvd., Suite 440, Chicago, IL 60604.

(2) Reflects 1,462,435 shares of shares of common stock beneficially owned by Ronald P. Erickson or entities controlled by Mr. Erickson and warrants to purchase 3,894,666 shares of our common stock that are exercisable within 60 day and 4,736,264 shares of our common stock related to convertible debt that are exercisable within 60 days. The address of Mr. Erickson is 500 Union Street, Suite 810, Seattle, WA 98101.

(3) Reflects 3,005,000 shares of shares of common stock beneficially owned by Phillip A. Bosua and vested stock option grants to purchase 812,500 shares of our common stock that are exercisable within 60 days. The address of Mr. Bosua is 500 Union Street, Suite 810, Seattle, WA 98101.

(4) Reflects the shares beneficially owned by Dale Broadrick. This total includes 1,239,286 shares, 150,000 shares of our common stock related to convertible debt and a total of 436,222 warrants to purchase shares of our common stock that are exercisable within 60 days. The address of Dale Broadrick is 3003 Brick Church Pike, Nashville, Tennessee.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Director Independence

For purposes of determining director independence, we have applied the definitions set out in NASDAQ Rule 5605(a)(2). The OTCBB on which shares of common stock are quoted does not have any director independence requirements. The NASDAQ definition of "Independent Director" means a person other than an Executive Officer or employee of the Company or any other individual having a relationship which, in the opinion of the Company's Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

According to the NASDAQ definition, Mr. Pepper, Mr. Takesako and Mr. Owens are each independent directors. All current directors are or may become in the future shareholders of the Company

Policies and Procedures for Related Person Transactions

We have operated under a Code of Conduct and Ethics since December 28, 2012. Our Code of Conduct and Ethics requires all employees, officers and directors, without exception, to avoid the engagement in activities or relationships that conflict, or would be perceived to conflict, with our interests.

Prior to the adoption of our related person transaction policy, there was a legitimate business reason for all the related person transactions described above and we believe that, where applicable, the terms of the transactions are no less favorable to us than could be obtained from an unrelated person.

Our Audit Committee reviews all relationships and transactions in which we and our directors and executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest.

As required under SEC rules, transactions that are determined to be directly or indirectly material to us or a related person are disclosed.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Since October 1, 2019, we have engaged in the following reportable transactions with our directors, executive officers, holders of more than 5% of our voting securities and affiliates, or immediately family members of our directors, executive officers and holders of more than 5% of our voting securities.

Other than the following transactions, none of the directors or executive officers of the Company, nor any person who owned of record or was known to own beneficially more than 5% of the Company's outstanding shares of its Common Stock, nor any associate or affiliate of such persons or companies, has any material interest, direct or indirect, in any transaction that has occurred during the past fiscal year, or in any proposed transaction, which has materially affected or will affect the Company.

With regard to any future related party transaction, we plan to fully disclose any and all related party transactions in the following manner:

- Disclosing such transactions in reports where required;
- Disclosing in any and all filings with the SEC, where required;
- Obtaining disinterested director's consent; and
- Obtaining shareholder consent where required.

Transactions with Clayton Struve

See Notes 7, 9, 11 and 15 for related party transactions with Clayton A. Struve.

On January 5, 2021, the Company extended the warrant expiration date to August 4, 2023 with Clayton A. Struve, a major investor in the Company:

Warrant No./Class	Issue Date	No. Warrant Shares	Exercise Price	Original Expiration Date	Amended Expiration Date
Clayton Struve Warrant Series C Warrant W98	08-04-2016	1,785,715	\$ 0.25	08-04-2021	08-04-2023
Clayton Struve Warrant Series F Warrant F-1	11-14-2016	187,500	\$ 0.25	11-13-2021	11-13-2023
Clayton Struve Warrant Series F Warrant F-2	12-19-2016	187,500	\$ 0.25	12-18-2021	12-18-2023

On January 28, 2021, Clayton A. Struve exercised warrants on a cashless basis for 889,880 shares of common stock at \$0.25 per share, including warrants for 187,500 and 187,500 that were just extended as discussed above.

[Table of Contents](#)

The Company owes Clayton A. Struve \$1,071,000 under convertible promissory or OID notes. On November 8, 2021, the Company signed Amendments to the convertible promissory or OID notes, extending the due dates to March 31, 2022.

Mr. Struve invested \$1,000,000 in the Debt Offering which closed in May 2019. On March 18, 2020, Mr. Struve received 1,080,000 shares of common stock related to the automatic conversion of the \$1,000,000 invested in the Debt Offering.

Related Party Transactions with Ronald P. Erickson

See Notes 9, 10, 11, 12 and 15 for related party transactions with Ronald P. Erickson.

On October 4, 2019, Ronald P. Erickson voluntarily cancelled a stock option grant for 1,000,000 shares with an exercise price of \$3.03 per share. The grant was related to performance and was not vested.

On November 4, 2019, we granted a stock option grant to Ronald P. Erickson for 1,200,000 shares with an exercise price of \$1.10 per share. The performance grant expires November 4, 2024 and vests upon uplisting to the NASDAQ or NYSE exchanges.

On January 1, 2020, we issued 100,000 shares of restricted common stock to Ronald P. Erickson. The shares were issued in accordance with the 2011 Stock Incentive Plan and were valued at \$1.90 per share, the market price of our common stock, or \$190,000.

On June 1, 2020, Mr. Erickson received a salary of \$10,000 per month for work on Particle, Inc. This salary was cancelled as of August 15, 2021.

On July 2, 2020, Particle issued a stock option grant for 1,500,000 shares at \$0.10 per share to Ronald P. Erickson. The stock option grant vests (i) 33.3% upon issuance; (ii) 33.3% after the first sale; and (iii) 33.4% after one million in sales are achieved. The stock option grant was forfeited as of September 30, 2021.

On December 15, 2020, we issued a fully vested warrant to Ronald P. Erickson for 2,000,000 shares of common stock. The five year warrant is exercisable for cash or non-cash at \$1.53 per share and was valued using a Black-Scholes model at \$1,811,691.

On December 15, 2020, we issued two stock option grants to Ronald P. Erickson, one for 1,865,675 shares and one for 1,865,675 shares at an exercise price of \$1.53 per share. The stock option grants expire in five years. The stock option grants vest when earned based on certain performance criteria.

Mr. Erickson and/or entities with which he is affiliated also have accrued compensation, travel and interest of approximately \$421,599 and \$597,177 as of September 30, 2021 and 2020, respectively.

During the year ended September 30, 2021, we paid \$272,500 of salaries to Mr. Erickson that were previously accrued and reported but were deferred.

On September 30, 2021, the Company approved Amendments to the convertible redeemable promissory notes with Ronald P. Erickson and J3E2A2Z, extending the due dates to March 31, 2022.

Related Party Transaction with Phillip A. Bosua

See Notes 9, 10, 11 and 12 for related party transactions with Phillip A. Bosua.

On October 4, 2019, Philip A. Bosua voluntarily cancelled a stock option grant for 1,000,000 shares with an exercise price of \$3.03 per share. The grants was related to performance and was not vested.

On November 4, 2019, we granted a stock option grant to Philip A. Bosua for 1,200,000 shares with an exercise price of \$1.10 per share. The performance grant expires November 4, 2024 and vests upon FDA approval of the UBAND blood glucose monitor.

On January 1, 2020, we issued 150,000 shares of restricted common stock to Phillip A. Bosua. The shares were issued in accordance with the 2011 Stock Incentive Plan and were valued at \$1.90 per share, the market price of our common stock, or \$285,000.

On June 1, 2020, Mr. Bosua received a salary of \$10,000 per month for work on Particle, Inc. This salary was cancelled as of August 15, 2021.

On July 2, 2020, Particle issued a stock option grant for 1,500,000 shares at \$0.10 per share to Philip A. Bosua. The stock option grant vests (i) 33.3% upon issuance; (ii) 33.3% after the first sale; and (iii) 33.4% after one million in sales are achieved. The stock option grant was forfeited as of September 30, 2021.

Table of Contents

On December 15, 2020, we issued two stock option grants to Phillip A. Bosua, one for 2,132,195 shares and one for 2,132,200 shares at an exercise price of \$1.53 per share. The stock option grants expire in five years. The stock option grants vest when earned based on certain performance criteria.

On March 18, 2021, we approved a \$250,000 bonus for Mr. Bosua. The bonus was paid during April 2021.

Stock Issuances and Cancellations to Named Executive Officers and Directors

On November 4, 2019, we granted stock option grants to two directors totaling 105,000 shares with an exercise price of \$1.10 per share. The stock option grants expire in five years. The stock option grants vested immediately.

On January 1, 2020, we issued 120,000 shares of restricted common stock to three directors. The shares were issued in accordance with the 2011 Stock Incentive Plan and were valued at \$1.90 per share, the market price of the Company's common stock, or \$228,000.

On January 15, 2021, we issued 30,000 shares each to three directors shares at an exercise price of \$2.00 per share.

On January 15, 2021, we issued 20,000 warrants to purchase common stock each to three directors shares at \$2.00 per share. The warrants expire on January 15, 2026.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Audit Committee Pre-Approval Policy

The Audit Committee has established a pre-approval policy and procedures for audit, audit-related and tax services that can be performed by the independent auditors without specific authorization from the Audit Committee subject to certain restrictions. The policy sets out the specific services pre-approved by the Audit Committee and the applicable limitations, while ensuring the independence of the independent auditors to audit the Company's financial statements is not impaired. The pre-approval policy does not include a delegation to management of the Audit Committee's responsibilities under the Exchange Act. During the year ended September 30, 2021, the Audit Committee pre-approved all audit and permissible non-audit services provided by our independent auditors.

Service Fees Paid to the Independent Registered Public Accounting Firm

The Audit Committee engaged BPM LLP to perform an annual audit of our financial statements for the fiscal year ended September 30, 2021 and 2020. The following is the breakdown of aggregate fees for the last two fiscal years. Another tax firm prepares our tax returns.

	Year Ended September 30, 2021	Year Ended September 30, 2020
Audit fees	\$ 107,000	\$ 178,325
Audit related fees	67,410	48,150
Tax fees	-	14,150
All other fees	22,470	14,615
	<u>\$ 196,880</u>	<u>\$ 255,240</u>

- "Audit Fees" are fees paid for professional services for the audit of our financial statements.

- "Audit-Related fees" are fees paid for professional services not included in the first two categories, specifically, PCAOB interim quarterly, SEC filings and consents, and accounting consultations on matters addressed during the audit or interim reviews, and review work related to quarterly filings.

- "Tax Fees" are fees primarily for tax compliance in connection with filing US income tax returns.

- "All other fees" related to the reviews of Registration Statements on Form S-1.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Our executive officers, directors and 10% stockholders are required under Section 16(a) of the Exchange Act to file reports of ownership and changes in ownership with the SEC. Copies of these reports must also be furnished to us.

Based solely on a review of copies of reports furnished to us, as of September 30, 2021 our executive officers, directors and 10% holders complied with all filing requirements except as follows:

Phillip A. Bosua filed a Form 4 on December 21, 2020 that was required to be filed on December 18, 2020.

Ronald P. Erickson filed a Form 4 on December 21, 2020 that was required to be filed on December 18, 2020.

Ichiro Takesako filed a Form 4 on March 1, 2021 that was required to be filed on February 18, 2021.

Ichiro Takesako filed a Form 4 on September 30, 2021 that was required to be filed on August 27, 2021.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a) FINANCIAL STATEMENTS:

The company's financial statements, as indicated by the Index to Consolidated Financial Statements set forth below, begin on page F-1. Financial statement schedules have been omitted because they are not applicable or the required information is included in the financial statements or notes thereto.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
Know Labs, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Know Labs, Inc. and subsidiaries (the Company) as of September 30, 2021 and 2020, and the related consolidated statements of operations, stockholders' equity (deficit), and cash flows for each of the two years in the period ended September 30, 2021 and the related notes (collectively referred to as the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of September 30, 2021 and 2020, and the results of its operations and its cash flows for each of the two years in the period ended September 30, 2021, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's consolidated financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing separate opinions on the critical audit matter or on the accounts or disclosures to which they relate.

Convertible Notes Payable

As described in Note 7 to the consolidated financial statements, the Company has entered into rounds of financing for the issuance of convertible notes with attached warrants. The convertible note agreements contain conversion and redemption features that may be considered derivative instruments. The redemption feature that may be considered a derivative instrument is the following: Mandatory Conversion on Qualified Financing. Each Holder will be required to convert the Note into a Qualified Financing at a conversion price per share equal to the lower of (i) \$2.00 or (ii) a twenty-five percent (25%) discount to the price per share paid by investors in such Qualified Financing. This mandatory conversion shall be automatic and Holder will receive a number of shares based on the conversion price for the principal amount of the note and unpaid interest. The 25% discount (redemption feature) is considered a derivative liability. Management concluded that the accounting impact is negligible as the probability that a qualified financing will take place before maturity date is remote and the redemption feature value was nominal based upon the stock price as of September 30, 2021.

The principal considerations for our determination that performing procedures relating to convertible notes is a critical audit matter are the significant amount of judgement by management in developing the assumptions of the attached redemption features, which in turn led to significant auditor judgement, subjectivity, and effort in performing audit procedures and evaluating audit evidence relating to proper classification and valuation of this feature.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included analyzing the convertible note agreements, performing technical research and relying on authoritative guidance to evaluate the treatment for the redemption feature and management's conclusion. The procedures also included, among others, evaluating and discussing with management the Company's current liquidity position and their intentions to undertake a qualified financing prior to the maturity dates of the convertible notes, recalculating the value of the conversion and redemption features in the convertible notes based upon the stock price at September 30, 2021 and the length of time until maturity of the convertible notes.

KNOW LABS, INCORPORATED AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION

Know Labs, Inc. (the “Company”) was incorporated under the laws of the State of Nevada in 1998. The Company has authorized 105,000,000 shares of capital stock, of which 100,000,000 are shares of voting common stock, par value 0.001 per share, and 5,000,000 are shares preferred stock, par value \$0.001 per share. At the annual shareholder meeting held on October 15, 2021, our authorized shares of common stock was increased to 200,000,000 shares of voting common stock, par value \$0.001 per share.

The Company is focused on the development and commercialization of proprietary biosensor technologies which, when paired with our AI deep learning platform, are capable of uniquely identifying and measuring almost any material or analyte using electromagnetic energy to detect, record, identify and measure the unique “signature” of said materials or analytes. The Company calls these our “Bio-RFID™” technology platform when pertaining to radio and microwave spectroscopy; and “ChromaID” technology platform when pertaining to optical spectroscopy. The data obtained with the Company’s biosensor technology is analyzed with our trade secret algorithms which are driven by our AI Deep Learning platform.

ChromaID is the first technology developed and patented by the Company. For the past several years, the Company has focused upon extensions and new patentable inventions that are derived from and extend beyond our ChromaID technology and intellectual property. The Company calls this technology platform Bio-RFID. The rapid advances made with our Bio-RFID technology in our laboratory have caused us to move quickly into the commercialization phase of our Company as we work to create revenue generating products for the marketplace. Today, the primary focus of the Company is on its Bio-RFID technology, its commercialization and development of related patent assets. Through its wholly owned subsidiary corporations the Company works to exploit additional opportunities and markets that its broad intellectual property and trade secret portfolio addresses.

On April 30, 2020, the Company approved and ratified the incorporation of Particle, Inc. Particle is focused on the development and commercialization of our extensive intellectual property relating to electromagnetic energy outside of the medical diagnostic arena which remains the parent company’s singular focus. Since incorporation, Particle has engaged in research and development activities on threaded light bulbs that have a warm white light and can inactivate germs, including bacteria and viruses. It is now looking for partners to take the product to market.

On September 17, 2021, the Company approved and ratified the incorporation of AI Mind, Inc. AI Mind is focused on monetizing the AI Deep Learning Platform. Since incorporation it has focused on creating patterns from Company data which were sold as NFTs. The Company will continue to look for opportunities for new applications on its AI Deep Learning Platform to generate revenues to support the continued development of its non-invasive diagnostic technology.

In 2010, the Company acquired TransTech Systems, Inc. as an adjunct to the Company’s business. TransTech was a distributor of products for employee and personnel identification and authentication. TransTech historically provided substantially all of the Company’s revenues. The financial results from our TransTech subsidiary had been diminishing as vendors of their products increasingly moved to the Internet and direct sales to their customers. While it did provide our prior year revenues, it was not central to our current focus as a Company. Moreover, the Company wrote down any goodwill associated with its historic acquisition. TransTech ceased operation on June 30, 2020 and was dissolved as of September 30, 2020.

2. LIQUIDITY

The Company has cash of approximately \$12,258,218 and net working capital of approximately \$10,092,586 (exclusive of convertible notes payable and right of use asset and liabilities) as of September 30, 2021. The Company anticipates that it will record losses from operations for the foreseeable future. The Company believes that it has enough available cash to operate until December 2023. As of September 30, 2021, the Company’s accumulated deficit was \$ 81,326,494. The Company has had limited capital resources and intends to seek additional cash via equity and debt offerings. .

On March 15, 2021, the Company closed private placement for gross proceeds of \$14,209,000 in exchange for issuing 8% Subordinated Convertible Notes and 3,552,250 Warrants in a private placement to accredited investors, pursuant to a series of substantially identical Securities Purchase Agreements, Common Stock Warrants, and related documents. The Convertible Notes and accrued interest will be automatically converted to Common Stock at \$2.00 per share on the one year anniversary starting on March 15, 2022.

See Note 15 for discussion of transactions subsequent to September 30, 2021 that generated additional cash for the Company.

3. SIGNIFICANT ACCOUNTING POLICIES: ADOPTION OF ACCOUNTING STANDARDS

Basis of Presentation – The accompanying consolidated financial statements include the accounts of the Company. Intercompany accounts and transactions have been eliminated. The preparation of these unaudited condensed consolidated financial statements were prepared in conformity with U.S. generally accepted accounting principles (“GAAP”).

Principles of Consolidation – The consolidated financial statements include the accounts of the Company, its wholly owned subsidiaries, TransTech Systems, Inc. and RAAI Lighting, Inc., and Particle, Inc. Inter-Company items and transactions have been eliminated in consolidation.

Cash and Cash Equivalents – The Company classifies highly liquid temporary investments with an original maturity of three months or less when purchased as cash equivalents. The Company maintains cash balances at various financial institutions. Balances at US banks are insured by the Federal Deposit Insurance Corporation up to \$250,000. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant risk for cash on deposit. At September 30, 2021 and 2020, the Company had uninsured deposits in the amount of \$12,008,228 and \$4,048,179, respectively.

Equipment – Equipment consists of machinery, leasehold improvements, furniture and fixtures and software, which are stated at cost less accumulated depreciation and amortization. Depreciation is computed by the straight-line method over the estimated useful lives or lease period of the relevant asset, generally 2-5 years, except for leasehold improvements which are depreciated over 5 years.

Long-Lived Assets – The Company reviews its long-lived assets for impairment annually or when changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets under certain circumstances are reported at the lower of carrying amount or fair value. Assets to be disposed of and assets not expected to provide any future service potential to the Company are recorded at the lower of carrying amount or fair value (less the projected cost associated with selling the asset). To the extent carrying values exceed fair values, an impairment loss is recognized in operating results.

Intangible Assets – Intangible assets are capitalized and amortized on a straight-line basis over their estimated useful life, if the life is determinable. If the life is not determinable, amortization is not recorded. We regularly perform reviews to determine if facts and circumstances exist which indicate that the useful lives of our intangible assets are shorter than originally estimated or the carrying amount of these assets may not be recoverable. When an indication exists that the carrying amount of intangible assets may not be recoverable, we assess the recoverability of our assets by comparing the projected undiscounted net cash flows associated with the related asset or group of assets over their remaining lives against their respective carrying amounts. Such impairment test is based on the lowest level for which identifiable cash flows are largely independent of the cash flows of other groups of assets and liabilities. Impairment, if any, is based on the excess of the carrying amount over the estimated fair value of those assets.

Research and Development Expenses – Research and development expenses consist of the cost of employees, consultants and contractors who design, engineer and develop new products and processes as well as materials, supplies and facilities used in producing prototypes.

The Company’s current research and development efforts are primarily focused on improving our Bio-RFID technology, extending its capacity and developing new and unique applications for this technology. As part of this effort, the Company conducts on-going laboratory testing to ensure that application methods are compatible with the end-user and regulatory requirements, and that they can be implemented in a cost-effective manner. The Company also is actively involved in identifying new applications. The Company’s current internal team along with outside consultants has considerable experience working with the application of the Company’s technologies and their applications. The Company engages third party experts as required to supplement our internal team. The Company believes that continued development of new and enhanced technologies is essential to our future success. The Company incurred expenses of \$3,969,972 and \$2,033,726 for the year ended September 30, 2021 and 2020, respectively, on development activities.

Advertising – Advertising costs are charged to selling, general and administrative expenses as incurred. Advertising and marketing costs for the years ended September 30, 2021 and 2020 were \$329,375 and \$230,844, respectively.

Fair Value Measurements and Financial Instruments – ASC Topic 820, *Fair Value Measurement and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This topic also establishes a fair value hierarchy, which requires classification based on observable and unobservable inputs when measuring fair value. The fair value hierarchy distinguishes between assumptions based on market data (observable inputs) and an entity’s own assumptions (unobservable inputs). The hierarchy consists of three levels:

Level 1 – Quoted prices in active markets for identical assets and liabilities;

Level 2 – Inputs other than level one inputs that are either directly or indirectly observable; and.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

[Table of Contents](#)

The recorded value of other financial assets and liabilities, which consist primarily of cash and cash equivalents, accounts receivable, other current assets, and accounts payable and accrued expenses approximate the fair value of the respective assets and liabilities as of September 30, 2021 and 2020 are based upon the short-term nature of the assets and liabilities.

The Company has a money market account which is considered a level 1 asset. The balance as of September 30, 2021 and 2020 was \$12,217,714 and \$4,252,959, respectively.

Derivative Financial Instruments – Pursuant to ASC 815 “Derivatives and Hedging”, the Company evaluates all of its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. The Company then determines if embedded derivative must be bifurcated and separately accounted for. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations. For stock-based derivative financial instruments, the Company uses a Black-Scholes-Merton option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument could be required within twelve months of the balance sheet date.

The Company determined that the conversion features for purposes of bifurcation within its currently outstanding convertible notes payable were immaterial and there was no derivative liability to be recorded as of September 30, 2021 and 2020.

Stock Based Compensation - The Company has share-based compensation plans under which employees, consultants, suppliers and directors may be granted restricted stock, as well as options and warrants to purchase shares of Company common stock at the fair market value at the time of grant. Stock-based compensation cost to employees is measured by the Company at the grant date, based on the fair value of the award, over the requisite service period under ASC 718. For options issued to employees, the Company recognizes stock compensation costs utilizing the fair value methodology over the related period of benefit.

Convertible Securities – Based upon ASC 815-15, we have adopted a sequencing approach regarding the application of ASC 815-40 to convertible securities. We will evaluate our contracts based upon the earliest issuance date. In the event partial reclassification of contracts subject to ASC 815-40-25 is necessary, due to our inability to demonstrate we have sufficient shares authorized and unissued, shares will be allocated on the basis of issuance date, with the earliest issuance date receiving first allocation of shares. If a reclassification of an instrument were required, it would result in the instrument issued latest being reclassified first.

Net Loss per Share – Under the provisions of ASC 260, “Earnings Per Share,” basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of shares of common stock outstanding for the periods presented. Diluted net loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. As of September 30, 2021, the Company had 35,166,551 shares of common stock issued and outstanding. As of September 30, 2021, there were options outstanding for the purchase of 15,315,120 common shares (including unearned stock option grants totaling 11,775,745 shares related to performance targets), warrants for the purchase of 22,564,255 common shares, and 8,108,356 shares of the Company’s common stock issuable upon the conversion of Series C and Series D Convertible Preferred Stock. In addition, the Company currently has 16,124,764 common shares (9,020,264 common shares at the current price of \$0.25 per share and 7,104,500 common shares at the current price of \$2.00 per share) reserved and are issuable upon conversion of convertible debentures of \$16,464,066. All of which could potentially dilute future earnings per share but are excluded from the September 30, 2021, calculation of net loss per share because their impact is antidilutive.

As of September 30, 2020, there were options outstanding for the purchase of 4,805,000 common shares (including unearned stock option grants totaling 2,630,000 shares related to performance targets), warrants for the purchase of 20,016,367 common shares, and 8,108,356 shares of the Company’s common stock issuable upon the conversion of Series C and Series D Convertible Preferred Stock. In addition, the Company currently has 14,659,764 common shares (9,020,264 common shares at the current price of \$0.25 per share and 5,639,500 common shares at the current price of \$1.00 per share) and are issuable upon conversion of convertible debentures of \$7,894,566. All of which could potentially dilute future earnings per share but excluded from the September 30, 2020 calculation of net loss per share because their impact is antidilutive.

Comprehensive loss – Comprehensive loss is defined as the change in equity of a business during a period from non-owner sources. There were no differences between net loss for the years ended September 30, 2021 and 2020 and comprehensive loss for those periods.

Dividend Policy – The Company has never paid any cash dividends and intends, for the foreseeable future, to retain any future earnings for the development of our business. Our future dividend policy will be determined by the board of directors on the basis of various factors, including our results of operations, financial condition, capital requirements and investment opportunities.

[Table of Contents](#)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In August 2020, the FASB issued Accounting Standards Update (“ASU”) No. 2020-06, *Debt --debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging --Contracts in Entity’ Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’ Own Equity* (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The new standard is effective for the Company on October 1, 2021. Adoption of the ASU is not expected to impact the Company’s financial position, results of operations or cash flows.

Based on the Company’s review of accounting standard updates issued since the filing of the 2021 Form 10-K, there have been no other newly issued or newly applicable accounting pronouncements that have had, or are expected to have, a significant impact on the Company’s consolidated financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company’s consolidated financial statements upon adoption.

4. FIXED ASSETS

Property and equipment as of September 30, 2021 and 2020 was comprised of the following:

	Estimated Useful Lives	September 30, 2021	September 30, 2020
Machinery and equipment	2-3 years	\$ 654,798	\$ 355,272
Leasehold improvements	5 years	3,612	3,612
Furniture and fixtures	5 years	26,855	26,855
Less: accumulated depreciation		(356,761)	(257,068)
		<u>\$ 328,504</u>	<u>\$ 128,671</u>

Total depreciation expense was \$99,693 and \$69,655 for the year ended September 30, 2021 and 2020, respectively. All equipment is used for general and administrative purposes and accordingly all depreciation is classified in general and administrative expenses.

5. INTANGIBLE ASSETS

Intangible assets as of September 30, 2021 and 2020 consisted of the following:

	Estimated Useful Lives	September 30, 2021	September 30, 2020
Technology	3 years	\$ 520,000	\$ 520,000
Less: accumulated amortization		(520,000)	(418,886)
Intangible assets, net		<u>\$ -</u>	<u>\$ 101,114</u>

Total amortization expense was \$101,114 and \$173,332 for the years ended September 30, 2021 and 2020, respectively.

Merger with RAAI Lighting, Inc.

On April 10, 2018, the Company entered into an Agreement and Plan of Merger with 500 Union Corporation, a Delaware corporation and a wholly owned subsidiary of the Company, and RAAI Lighting, Inc., a Delaware corporation. Pursuant to the Merger Agreement, the Company acquired all the outstanding shares of RAAI’s capital stock through a merger of Merger Sub with and into RAAI (the “Merger”), with RAAI surviving the Merger as a wholly owned subsidiary of the Company.

The fair value of the intellectual property associated with the assets acquired was \$520,000 estimated by using a discounted cash flow approach based on future economic benefits. In summary, the estimate was based on a projected income approach and related discounted cash flows over five years, with applicable risk factors assigned to assumptions in the forecasted results.

6. LEASES

The Company has entered into operating leases for office and development facilities. These leases have terms which range from two to three years and include options to renew. These operating leases are listed as separate line items on the Company's September 30, 2021 and 2020 Consolidated Balance Sheets and represent the Company's right to use the underlying asset for the lease term. The Company's obligation to make lease payments are also listed as separate line items on the Company's September 30, 2021 and 2020 Consolidated Balance Sheets. Based on the present value of the lease payments for the remaining lease term of the Company's existing leases, the Company recognized right-of-use assets and lease liabilities for operating leases of approximately \$291,000 as of September 30, 2021. Operating lease right-of-use assets and liabilities commencing after October 1, 2018 are recognized at commencement date based on the present value of lease payments over the lease term. During years ended September 30, 2021 and 2020, the Company had three leases expire and recognized the rent payments as an expense in the current period. As of September 30, 2021 and September 30, 2020, total operating lease liabilities for remaining long term lease was approximately \$290,000 and \$132,000, respectively. In the year ended September 30, 2021 and 2020, the Company recognized approximately \$139,643 and \$136,718, respectively in total lease costs for the leases.

Because the rate implicit in each lease is not readily determinable, the Company uses its incremental borrowing rate to determine the present value of the lease payments.

Information related to the Company's operating right-of-use assets and related lease liabilities as of and for the year ended September 30, 2021 was as follows:

Cash paid for ROU operating lease liability \$139,643
 Weighted-average remaining lease term 28 months
 Weighted-average discount rate 7%

The minimum future lease payments as of September 30, 2021 are as follows:

Years Ended September 30,	\$
2022	\$ 128,987
2023	107,662
2024	73,095
2025	-
2026	-
Total Remaining Payments	309,744
Of which Imputed Interest	(19,203)
Total Lease Liability	<u>\$ 290,541</u>

7. CONVERTIBLE NOTES PAYABLE AND NOTE PAYABLE

Convertible notes payable as of September 30, 2021 and 2020 consisted of the following:

Convertible Promissory Notes with Clayton A. Struve

The Company owes Clayton A. Struve \$1,071,000 under convertible promissory or OID notes. The Company recorded accrued interest of \$79,062 and \$71,562 as of September 30, 2021 and 2020, respectively. On December 23, 2020, the Company signed Amendments to the convertible promissory or OID notes, extending the due dates to March 31, 2021. On November 8, 2021, the Company signed Amendments to the convertible promissory or OID notes, extending the due dates to March 31, 2022.

Mr. Struve also invested \$1,000,000 in the May 2019 Convertible Debt Offering and such note was converted to common stock in May 2020.

Convertible Redeemable Promissory Notes with Ronald P. Erickson and J3E2A2Z

On March 16, 2018, the Company entered into a Note and Account Payable Conversion Agreement pursuant to which (a) all \$664,233 currently owing under the J3E2A2Z Notes was converted to a Convertible Redeemable Promissory Note in the principal amount of \$664,233, and (b) all \$519,833 of the J3E2A2Z Account Payable was converted into a Convertible Redeemable Promissory Note in the principal amount of \$519,833 together with a warrant to purchase up to 1,039,666 shares of common stock of the Company for a period of five years. The initial exercise price of the warrants described above is \$0.50 per share, also subject to certain adjustments. The warrants were valued at \$110,545. Because the note is immediately convertible, the warrants and beneficial conversion were expensed as interest. The Company recorded accrued interest of \$216,246 and \$145,202 as of September 30, 2021 and 2020, respectively. On September 30, 2021, the Company approved Amendments to the convertible redeemable promissory notes with Ronald P. Erickson and J3E2A2Z, extending the due dates to March 31, 2022.

Convertible Debt Offering

Beginning in 2019, the Company entered into series of debt offerings with similar and consistent terms. The Company issued Subordinated Convertible Notes and Warrants in a private placement to accredited investors, pursuant to a series of substantially identical Securities Purchase Agreements, Common Stock Warrants, and related documents. The notes are convertible into one share of common stock for each dollar invested in a Convertible Note Payable and automatically convert to common stock after one year. The convertible notes contain terms and conditions which are deemed to be a Beneficial Conversion Feature (BCF). Warrants are issued to purchase common stock with exercise prices of \$1.20 and \$2.40 per share and the number of warrants are equal to 50% of the convertible note balance. The Company compensates the placement agent with a cash fee and warrants. Through December 31, 2021, the Company has raised approximately \$24 million through these offerings, of which \$14,209,000 and \$5,639,500 were raised in the years ended September 30, 2021 and 2020, respectively.

The Convertible Notes issued during the year ended September 30, 2021 are initially convertible into 7,104,500 shares of Common Stock, subject to certain adjustments, and the Warrants are initially exercisable for 3,552,250 shares of Common Stock.

The fair value of the Warrants issued to debt holders during the year ended September 30, 2021 was \$4,439,317 on the date of issuance and will be amortized over the one-year term of the Convertible Notes. The fair value of the warrants was recorded as debt discount (with an offset to APIC) and will be amortized over the one-year term of the Convertible Notes.

In connection with the debt offering during the year ended June 30, 2021, the placement agent for the Convertible Notes and the Warrants received a cash fee of \$727,117 and warrants to purchase 492,090 shares of the Company's common stock, all based on 2-8% of gross proceeds to the Company. The warrants issued for these services had a fair value of \$1,667,281 at the date of issuance. The fair value of the warrants was recorded as debt discount (with an offset to APIC) and will be amortized over the one-year term of the Convertible Notes. The \$727,117 cash fee was recorded as issuance costs and will be amortized over the one-year term of the related Convertible Notes.

During the years ended September 30, 2021 and 2020, the Company recorded a debt discount of \$9,769,683 and \$3,766,074 associated with a beneficial conversion feature on the debt, which is being accreted using the effective interest method over the one-year term of the Convertible Notes.

During the year ended September 30, 2021, the Company issued 6,091,960 shares of common stock related to the automatic conversion of Convertible Notes and interest from a private placement to accredited investors in 2020. The Convertible Notes and interest were automatically converted to Common Stock at \$1.00 per share on the one year anniversary starting on October 17, 2020.

During the year ended September 30, 2021 and 2020, amortization related to the debt offerings of \$13,256,250 and \$5,662,690 of the beneficial conversion feature, warrants issued to debt holders and placement agent was recognized as interest expense in the consolidated statements of operations.

Convertible notes payable as of September 30, 2021 and 2020 are summarized below:

	September 30, 2021	September 30, 2020
Convertible note- Clayton A. Struve	\$ 1,071,000	\$ 1,071,000
Convertible note- Ronald P. Erickson and affiliates	1,184,066	1,184,066
2019 Convertible notes	4,242,490	4,242,490
2020 Convertible notes	5,639,500	5,639,500
Q2 2021 Convertible notes	14,209,000	-
Boustead fee refund (originally booked as contra debt)	50,000	50,000
Less conversions of notes	(9,881,990)	(4,242,490)
Less debt discount - BCF	(4,308,337)	(2,127,894)
Less debt discount - warrants	(1,957,590)	(1,025,512)
Less debt discount - warrants issued for services	(1,056,984)	(823,582)
	<u>\$ 9,191,155</u>	<u>\$ 3,967,578</u>

Note Payable-PPP Loans

On April 30, 2020, the Company received \$226,170 under the Paycheck Protection Program of the U.S. Small Business Administration's 7(a) Loan Program pursuant to the Coronavirus, Aid, Relief and Economic Security Act (CARES Act), Pub. Law 116-136, 134 Stat. 281 (2020). As of September 30, 2021 and 2020, the Company recorded interest expense of \$ 3,222 and \$960, respectively. The Company utilized the funds in accordance with the legal requirements and expects this loan to be forgiven. Until the loan is legally forgiven, the loan balance will outstanding. The Company filed the application for the loan forgiveness during the three months ended December 31, 2021 and the Company is expecting approval by the SBA.

[Table of Contents](#)

On February 1, 2021, the Company received \$205,633 under the Paycheck Protection Program of the U.S. Small Business Administration's 7(a) Loan Program pursuant to the Coronavirus, Aid, Relief and Economic Security Act (CARES Act), Pub. Law 116-136, 134 Stat. 281 (2020). As of September 30, 2021, the Company recorded interest expense of \$ 1,268. The Company utilized the funds in accordance with the legal requirements and expects this loan to be forgiven. Until the loan is legally forgiven, the loan balance will be outstanding. The Company filed the application for the loan forgiveness during the three months ended December 31, 2021 and the Company is expecting approval by the SBA.

8. SIMPLE AGREEMENTS FOR FUTURE EQUITY

In July 2020, Particle entered into Simple Agreements for Future Equity ("SAFE") with twenty two accredited investors pursuant to which Particle received \$785,000 in cash in exchange for the providing the investor the right to receive shares of the Particle stock. The Company expects to issue 981,250 shares of the Particle stock that was initially valued at \$0.80 per share. The Company paid \$47,100 in broker fees which were expensed as business development expenses.

In October 2020, Particle entered into Simple Agreements for Future Equity ("SAFE") with two accredited investors pursuant to which Particle received \$55,000 in cash in exchange for the providing the investor the right to receive shares of the Particle stock. The Company expects to issue 68,750 shares of the Particle stock that was initially valued at \$0.80 per share. The Company paid \$4,125 in broker fees which were expensed as business development expenses.

During the three months ended March 31, 2021, Particle entered into Simple Agreements for Future Equity ("SAFE") with five accredited investors pursuant to which Particle received \$340,000 in cash in exchange for the providing the investor the right to receive shares of the Particle stock. The Company expects to issue 68,750 shares of the Particle stock that was initially valued at \$0.80 per share. The Company paid \$23,660 in broker fees which were expensed as business development expenses.

Through August 9, 2021, \$1,125,000 has been raised through the sale of SAFE instruments. On this date, certain investors elected to convert their SAFE instruments balance and accrued interest into Know Labs common stock. The Company issued 480,600 shares of common stock at an average price of \$2.00 per share or \$961,200 related to the conversion into the Company's common shares. The exercise price was below the fair market value of Know Labs stock, as such the Company recorded a beneficial conversion feature of \$72,090.

The Company also issued five year warrants to these investors for 240,000 shares of the Company's common stock. The warrants are exercisable at \$2.40 per share. The warrants were valued at \$1.641 per share or \$394,332 and were expensed during the current year. The Company repaid \$253,800 to investors that elected to redeem their SAFE instruments for cash.

The Company recorded interest expense of \$90,000 and paid \$54,108 to Boustead Securities LLC in fees during the year ended September 30, 2021 related to this transaction. The Company also issued a five year warrant to Boustead Securities LLC for 43,254 shares of the Company's common stock. The warrant is exercisable at \$2.40 per share and was valued at \$1.641 per share or \$70,980.

9. EQUITY

Authorized Capital Stock

The Company has authorized 105,000,000 shares of capital stock, of which 100,000,000 are shares of voting common stock, par value \$0.001 per share, and 5,000,000 are shares of preferred stock, par value \$0.001 per share. At the annual shareholder meeting held on October 15, 2021, our authorized shares of common stock was increased to 200,000,000 shares of voting common stock, par value \$0.001 per share. We have authorized 5,000,000 are shares of preferred stock, par value \$0.001 per share.

As of September 30, 2021, we had 35,166,551 shares of common stock issued and outstanding, held by 163 stockholders of record. The number of stockholders, including beneficial owners holding shares through nominee names, is approximately 3,600. Each share of common stock entitles its holder to one vote on each matter submitted to the stockholders for a vote, and no cumulative voting for directors is permitted. Stockholders do not have any preemptive rights to acquire additional securities issued by the Company. As of September 30, 2021, there were options outstanding for the purchase of 15,315,120 common shares (including unearned stock option grants totaling 11,775,745 shares related to performance targets), warrants for the purchase of 22,564,255 common shares, and 8,108,356 shares of the Company's common stock issuable upon the conversion of Series C and Series D Convertible Preferred Stock. In addition, the Company currently has 16,124,764 common shares (9,020,264 common shares at the current price of \$0.25 per share and 7,104,500 common shares at the current price of \$2.00 per share) reserved and are issuable upon conversion of convertible debentures of \$16,464,066. All of which could potentially dilute future earnings per share but are excluded from the September 30, 2021, calculation of net loss per share because their impact is antidilutive.

Series C and D Preferred Stock and Warrants

On August 5, 2016, the Company closed a Series C Preferred Stock and Warrant Purchase Agreement with Clayton A. Struve, an accredited investor for the purchase of \$ 1,250,000 of preferred stock with a conversion price of \$0.70 per share. The preferred stock has a yield of 8% and an ownership blocker of 4.99%. In addition, Mr. Struve received a five-year warrant to acquire 1,785,714 shares of common stock at \$0.70 per share. On August 14, 2017, the price of the Series C Stock were adjusted to \$0.25 per share pursuant to the documents governing such instruments. On August 14, 2017, the price of the Series D Stock were adjusted to \$0.25 per share pursuant to the documents governing such instruments. The Series D Preferred Stock is convertible into shares of common stock at a price of \$0.25 per share or by multiplying the number of Series D Preferred Stock shares by the stated value and dividing by the conversion price then in effect, subject to certain diluted events, and has the right to vote the number of shares of common stock the Series D Preferred Stock would be issuable on conversion, subject to a 4.99% blocker. The Preferred Series D has an annual yield of 8% The Series D Preferred Stock is convertible into shares of common stock at a price of \$0.25 per share or by multiplying the number of Series D Preferred Stock shares by the stated value and dividing by the conversion price then in effect, subject to certain diluted events, and has the right to vote the number of shares of common stock the Series D Preferred Stock would be issuable on conversion, subject to a 4.99% blocker. The Preferred Series D has an annual yield of 8% if and when dividends are declared.

Series F Preferred Stock

On August 1, 2018, the Company filed with the State of Nevada a Certificate of Designation establishing the Designations, Preferences, Limitations and Relative Rights of Series F Preferred Stock. The Designation authorized 500 shares of Series F Preferred Stock. The Series F Preferred Stock shall only be issued to the current Board of Directors on the date of the Designation's filing and is not convertible into common stock. As set forth in the Designation, the Series F Preferred Stock has no rights to dividends or liquidation preference and carries rights to vote 100,000 shares of common stock per share of Series F upon a Trigger Event, as defined in the Designation. A Trigger Event includes certain unsolicited bids, tender offers, proxy contests, and significant share purchases, all as described in the Designation. Unless and until a Trigger Event, the Series F shall have no right to vote. The Series F Preferred Stock shall remain issued and outstanding until the date which is 731 days after the issuance of Series F Preferred Stock ("Explosion Date"), unless a Trigger Event occurs, in which case the Explosion Date shall be extended by 183 days. As of September 30, 2021 and 2020, there are no Series F shares outstanding.

Securities Subject to Price Adjustments

In the future, if the Company sells its common stock at a price below \$0.25 per share, the exercise price of 8,108,356 outstanding shares of Series C and D Preferred Stock that adjust below \$0.25 per share pursuant to the documents governing such instruments. In addition, the conversion price of Convertible Notes Payable of \$16,464,066 or 16,124,764 common shares (9,020,264 common shares at \$0.25 per share and 7,104,500 at \$2.00) and the exercise price of additional outstanding warrants to purchase 10,384,381 shares of common stock would adjust below \$0.25 per share pursuant to the documents governing such instruments. Warrants totaling 4,487,207 would adjust below \$1.20 per share pursuant to the documents governing such instruments. Warrants totaling 3,954,625 would adjust below \$2.40 per share pursuant to the documents governing such instruments.

Common Stock

All of the offerings and sales described below were deemed to be exempt under Rule 506 of Regulation D and/or Section 4(a)(2) of the Securities Act. No advertising or general solicitation was employed in offering the securities, the offerings and sales were made to a limited number of persons, all of whom were accredited investors and transfer was restricted by the company in accordance with the requirements of Regulation D and the Securities Act. All issuances to accredited and non-accredited investors were structured to comply with the requirements of the safe harbor afforded by Rule 506 of Regulation D, including limiting the number of non-accredited investors to no more than 35 investors who have sufficient knowledge and experience in financial and business matters to make them capable of evaluating the merits and risks of an investment in our securities.

The Company entered into a Consulting Agreement with Mr. Bosua's company, Blaze Clinical on July 7, 2017. From September 2012 to February 2015, Mr. Bosua was the founder and Chief Executive Officer of LIFX Inc. (where he developed and marketed an innovative "smart" light bulb) and from August 2015 until February 2016 was Vice President Consumer Products at Soraa (which markets specialty LED light bulbs). From February 2016 to July 2017, Mr. Bosua was the founder and CEO of RAAI, Inc. (where he continued the development of his smart lighting technology). From May 2008 to February 2013 he was the Founder and CEO of LimeMouse Apps, a leading developer of applications for the Apple App Store.

On April 10, 2018, we entered into an Employment Agreement with Mr. Bosua reflecting his appointment as Chief Executive Officer. The Employment Agreement is for an initial term of 12 months (subject to earlier termination) and will be automatically extended for additional 12-month terms unless either party notifies the other party of its intention to terminate the Employment Agreement with at least ninety (90) days prior to the end of the Initial Term or renewal term. Mr. Bosua was paid a base salary of \$ 225,000 per year, received 500,000 shares of common stock valued at \$0.33 per share and may be entitled to bonuses and equity awards at the discretion of the Board or a committee of the Board. The Employment Agreement provides for severance pay equal to 12 months of base salary if Mr. Bosua is terminated without "cause" or voluntarily terminates his employment for "good reason." During the years ended September 30, 2021 and 2020, the Compensation Committee and the Board compensated Phillip A. Bosua, its Chief Executive Officer, with an annual salary of \$ 240,000 from October 1, 2019 to May 1, 2020. May 1, 2020 to March 31, 2021, the annual compensation was \$260,000. From April 1, 2021 to September 30, 2021, the annual compensation was \$350,000.

The Compensation Committee and the Board of Particle, Inc. compensated Phillip A. Bosua with an annual salary of \$120,000 from June 1, 2020 to August 15, 2021.

Mr. Bosua will be entitled to participate in all group employment benefits that are offered by us to our senior executives and management employees from time to time, subject to the terms and conditions of such benefit plans, including any eligibility requirements.

If the Company terminates Mr. Bosua's employment at any time prior to the expiration of the Term without Cause, as defined in the Employment Agreement, or if Mr. Bosua terminates his employment at any time for "Good Reason" or due to a "Disability," Mr. Bosua will be entitled to receive (i) his Base Salary amount for one year; and (ii) medical benefits for eighteen months.

Employment Agreement with Ronald P. Erickson, Chairman of the Board and Interim Chief Financial Officer

On April 10, 2018, we entered into an Amended Employment Agreement for Ronald P. Erickson which amends the Employment Agreement dated July 1, 2017. The Agreement expires March 21, 2019, automatically be extended for additional one (1) year periods unless either Party delivers written notice of such Party's intention to terminate this Agreement at least ninety (90) days prior to the end of the Initial Term or renewal term.

During the years ended September 30, 2021 and 2020, the Compensation Committee and the Board compensated Ronald P. Erickson, its Chairman of the Board and Interim Financial Officer, with an annual salary of \$195,000 from October 1, 2019 to May 1, 2020. From May 1, 2020 to March 31, 2021, the annual compensation was \$215,000. From April 1, 2021 to September 30, 2021, the annual compensation was \$300,000. The Compensation Committee and the Board of Particle Inc. compensated Ronald P. Erickson with an annual salary of \$120,000 from June 1, 2020 to August 15, 2021.

Mr. Erickson will be entitled to participate in all group employment benefits that are offered by us to our senior executives and management employees from time to time, subject to the terms and conditions of such benefit plans, including any eligibility requirements.

If the Company terminates Mr. Erickson's employment at any time prior to the expiration of the Term without Cause, as defined in the Employment Agreement, or if Mr. Erickson terminates his employment at any time for "Good Reason" or due to a "Disability," Mr. Erickson will be entitled to receive (i) his Base Salary amount for one year; and (ii) medical benefits for eighteen months.

Properties and Operating Leases

The Company is obligated under the following leases for its various facilities.

Corporate Offices

On April 13, 2017, the Company leased its executive office located at 500 Union Street, Suite 810, Seattle, Washington, USA, 98101. The Company leases 943 square feet and the current net monthly payment is \$3,334. The monthly payment increases approximately 3% each year and the lease expires on May 31, 2022.

Lab Facilities and Executive Offices

On February 1, 2019, the Company leased its lab facilities and executive offices located at 915 E Pine Street, Suite 212, Seattle, WA 98122. We lease 2,642 square feet and the net monthly payment at September 30, 2021 is \$8,697. The monthly payment increases approximately 3% annually each year on July 1. The lease expires on June 30, 2024.

13. INCOME TAXES

The Company has incurred losses since inception, which have generated net operating loss carryforwards. The net operating loss carryforwards arise from United States sources.

Losses arising from United States taxable operations were approximately \$6.5 million and \$5.1 million for the years ended September 30, 2021 and 2020.

The Company has Federal net operating loss carryforwards of approximately \$43.8 million which expire in 2028-2041. Because it is not more likely than not that sufficient tax earnings will be generated to utilize the net operating loss carryforwards, a corresponding valuation allowance equal to 100% of the gross deferred tax asset of approximately \$9.7 million and \$8.0 million was established as of September 30, 2021 and 2020. The Company does not recognize the majority of state tax loss operating loss carryforwards as a deferred tax asset given it no longer has any operation in that state.

Under the Tax Reform Act of 1986, the amounts of, and benefits from, net operating losses may be limited in certain circumstances, including a change in control. Section 382 of the Internal Revenue Code generally imposes an annual limitation on the amount of net operating loss carryforwards that may be used to offset taxable income when a corporation has undergone significant changes in its stock ownership. There can be no assurance that the Company will be able to utilize any net operating loss carryforwards in the future. The Company is subject to possible tax examination for the years 2016 through 2021.

[Table of Contents](#)

The principal components of the Company's deferred tax assets at September 30, 2021 and 2020 are as follows:

	2021	2020
Net operating loss carryforward	\$ 8,051,000	\$ 6,536,000
Stock based compensation	975,000	1,196,000
Intangibles	276,000	305,000
Accruals and reserves	399,000	11,000
Total deferred tax asset	9,701,000	8,048,000
Valuation allowance	(9,701,000)	(8,048,000)
Net deferred tax assets	\$ -	\$ -
Change in valuation allowance during the year	\$ (1,653,000)	\$ (1,092,357)

A reconciliation of the United States Federal Statutory rate to the Company's effective tax rate for the years ended September 30, 2021 and 2020 are as follows. For the year ended September 30, 2021 and 2020, the Company's effective tax rate differs from the federal statutory rate principally due to non deductible warrant interest expense plus an increase in the deferred tax asset valuation allowance.

	2021	2020
Income tax provision at statutory rate	-21.0%	-21.0%
Warrant interest expense	12%	9%
Change in valuation allowance	7%	9%
Prior year true up	2%	3%
Effective tax rate	0%	0%

As of September 30, 2021, there were no uncertain tax positions. Management does not anticipate any future adjustments in the next twelve months which would result in a material change to its tax position. For the years ended September 30, 2021 and 2020, the Company did not have any interest and penalties.

14. SEGMENT REPORTING

The management of the Company considers the business to currently have two operating segments (i) the development of the Bio-RFID™ and "ChromaID™" technologies; (ii) Particle, Inc. technology.) TransTech, a distributor of products for employee and personnel identification and authentication was shut down on June 30, 2020. Particle commenced operations in the three months ended June 30, 2020.

The reporting for the year ended September 30, 2021 and 2020 was as follows (in thousands):

Segment	Revenue	Gross Margin	Operating (Loss)	Segment Assets
Year Ended September 30, 2021				
Development of the Bio-RFID™ and "ChromaID™" technologies	\$ -	\$ -	\$ (9,373)	\$ 12,867
Particle, Inc. technology	-	-	(1,073)	22
TransTech distribution business	-	-	-	-
Total segments	\$ -	\$ -	\$ (10,446)	\$ 12,889
Year Ended September 30, 2020				
Development of the Bio-RFID™ and "ChromaID™" technologies	\$ -	\$ -	\$ (5,481)	\$ 4,360
Particle, Inc. technology	-	-	(1,280)	322
TransTech distribution business	122	70	(65)	-
Total segments	\$ 122	\$ 70	\$ (6,826)	\$ 4,682

During years ended September 30, 2021 and 2020, the Company incurred non-cash expenses related to operations of \$3,979,584 and \$2,990,072.

15. SUBSEQUENT EVENTS

The Company evaluated subsequent events, for the purpose of adjustment or disclosure, up through the date the financial statements were issued. Subsequent to September 30, 2021, there were the following material transactions that require disclosure:

SECTION 302 CERTIFICATIONS

I, Phillip A. Bosua, certify that:

1. I have reviewed this annual report on Form 10-K of Know Labs, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(a) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
